PART A–1—ADVANCED NOTIFICATION OF TRAVELING SEX OFFENDERS

CODIFICATION

Part was enacted as part of the International Megan's Law to Prevent Child Exploitation and Other Sexual Crimes Through Advanced Notification of Traveling Sex Offenders, and not as part of the Sex Offender Registration and Notification Act which comprises this subchapter or the Adam Walsh Child Protection and Safety Act of 2006 which comprises this chapter.

§16935. Findings

Congress finds the following:

(1) Megan Nicole Kanka, who was 7 years old, was abducted, sexually assaulted, and murdered in 1994, in the State of New Jersey by a violent predator living across the street from her home. Unbeknownst to Megan Kanka and her family, he had been convicted previously of a sex offense against a child.

(2) In 1996, Congress adopted Megan's Law (Public Law 104–145) as a means to encourage States to protect children by identifying the whereabouts of sex offenders and providing the means to monitor their activities.

(3) In 2006, Congress passed the Adam Walsh Child Protection and Safety Act of 2006 (Public Law 109–248) to protect children and the public at large by establishing a comprehensive national system for the registration and notification to the public and law enforcement officers of convicted sex offenders.

(4) Law enforcement reports indicate that known child-sex offenders are traveling internationally.

(5) The commercial sexual exploitation of minors in child sex trafficking and pornography is a global phenomenon. The International Labour Organization has estimated that 1,8000,000 [1] children worldwide are victims of child sex trafficking and pornography each year.

(6) Child sex tourism, where an individual travels to a foreign country and engages in sexual activity with a child in that country, is a form of child exploitation and, where commercial, child sex trafficking.

§16985. Grants for Rape, Abuse & Incest National Network

(a) Findings

Congress finds as follows:

(1) More than 200,000 Americans each year are victims of sexual assault, according to the Department of Justice.

(2) In 2004, 1 American was sexually assaulted every 2.5 minutes.

(3) One of every 6 women, and 1 of every 133 men, in America has been the victim of a completed or attempted rape, according to the Department of Justice.

(4) The Federal Bureau of Investigation ranks rape second in the hierarchy of violent crimes for its Uniform Crime Reports, trailing only murder.

(5) The Federal Government, through the Victims of Crime Act [42 U.S.C. 10601 et seq.], Violence Against Women Act, and other laws, has long played a role in providing services to sexual assault victims and in seeking policies to increase the number of rapists brought to justice.

(6) Research suggests that sexual assault victims who receive counseling support are more likely to report their attack to the police and to participate in the prosecution of the offender.

(7) Due in part to the combined efforts of law enforcement officials at the local, State, and Federal level, as well as the efforts of the Rape, Abuse & Incest National Network (RAINN) and its affiliated rape crisis centers across the United States, sexual violence in America has fallen by more than half since 1994.

(8) RAINN, a 501(c)(3) nonprofit corporation headquartered in the District of Columbia, has since 1994 provided help to victims of sexual assault and educated the public about sexual assault prevention, prosecution, and recovery.

(9) RAINN established and continues to operate the National Sexual Assault Hotline, a free, confidential telephone hotline that provides help, 24 hours a day, to victims nationally.

(10) More than 1,100 local rape crisis centers in the 50 States and the District of Columbia partner with RAINN and are members of the National Sexual Assault Hotline network (which has helped more than 970,000 people since its inception in 1994).

(11) To better serve victims of sexual assault, 80 percent of whom are under age 30 and 44 percent of whom are under age 18, RAINN will soon launch the National Sexual Assault Online Hotline, the web's first secure hotline service offering live help 24 hours a day.

(12) Congress and the Department of Justice have given RAINN funding to conduct its crucial work.

(13) RAINN is a national model of public/private partnership, raising private sector funds to match congressional appropriations and receiving extensive private in-kind support, including advanced technology provided by the communications and technology industries to launch the National Sexual Assault Hotline and the National Sexual Assault Online Hotline.

(14) Worth magazine selected RAINN as one of "America's 100 Best Charities", in recognition of the organization's "efficiency and effectiveness.".[1]

(15) In fiscal year 2005, RAINN spent more than 91 cents of every dollar received directly on program services.

(16) The demand for RAINN's services is growing dramatically, as evidenced by the fact that, in 2005, the National Sexual Assault Hotline helped 137,039 people, an all-time record.

(17) The programs sponsored by RAINN and its local affiliates have contributed to the increase in the percentage of victims who report their rape to law enforcement.

(18) According to a recent poll, 92 percent of American women said that fighting sexual and domestic violence should be a top public policy priority (a higher percentage than chose health care, child care, or any other issue).

(19) Authorizing Federal funds for RAINN's national programs would promote continued progress with this interstate problem and would make a significant difference in the prosecution of rapists and the overall incidence of sexual violence.

(b) Duties and functions of the Administrator

(1) Description of activities

The Administrator shall—

§16989. Fugitive Safe Surrender

(a) Findings

Congress finds the following:

(1) Fugitive Safe Surrender is a program of the United States Marshals Service, in partnership with public, private, and faith-based organizations, which temporarily transforms a church into a courthouse, so fugitives can turn themselves in, in an atmosphere where they feel more comfortable to do so, and have nonviolent cases adjudicated immediately.

(2) In the 4-day pilot program in Cleveland, Ohio, over 800 fugitives turned themselves in. By contrast, a successful Fugitive Task Force sweep, conducted for 3 days after Fugitive Safe Surrender, resulted in the arrest of 65 individuals.

(3) Fugitive Safe Surrender is safer for defendants, law enforcement, and innocent bystanders than needing to conduct a sweep.

(4) Based upon the success of the pilot program, Fugitive Safe Surrender should be expanded to other cities throughout the United States.

(b) Establishment

The United States Marshals Service shall establish, direct, and coordinate a program (to be known as the "Fugitive Safe Surrender Program"), under which the United States Marshals Service shall apprehend Federal, State, and local fugitives in a safe, secure, and peaceful manner to be coordinated with law enforcement and community leaders in designated cities throughout the United States.

§17373. Convention on Supplementary Compensation for Nuclear Damage contingent cost allocation

(a) Findings and purpose

(1) Findings

Congress finds that—

(A) section 2210 of this title (commonly known as the "Price-Anderson Act")—

(i) provides a predictable legal framework necessary for nuclear projects; and

(ii) ensures prompt and equitable compensation in the event of a nuclear incident in the United States;

(B) the Price-Anderson Act, in effect, provides operators of nuclear powerplants with insurance for damage arising out of a nuclear incident and funds the insurance primarily through the assessment of a retrospective premium from each operator after the occurrence of a nuclear incident;

(C) the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997, will establish a global system—

(i) to provide a predictable legal framework necessary for nuclear energy projects; and

(ii) to ensure prompt and equitable compensation in the event of a nuclear incident;

(D) the Convention benefits United States nuclear suppliers that face potentially unlimited liability for nuclear incidents that are not covered by the Price-Anderson Act by replacing a potentially open-ended liability with a predictable liability regime that, in effect, provides nuclear suppliers with insurance for damage arising out of such an incident;

(E) the Convention also benefits United States nuclear facility operators that may be publicly liable for a Price-Anderson incident by providing an additional early source of funds to compensate damage arising out of the Price-Anderson incident;

(F) the combined operation of the Convention, the Price-Anderson Act, and this section will augment the quantity of assured funds available for victims in a wider variety of nuclear incidents while reducing the potential liability of United States suppliers without increasing potential costs to United States operators;

(G) the cost of those benefits is the obligation of the United States to contribute to the supplementary compensation fund established by the Convention;

(H) any such contribution should be funded in a manner that does not—

(i) upset settled expectations based on the liability regime established under the Price-Anderson Act; or

(ii) shift to Federal taxpayers liability risks for nuclear incidents at foreign installations;

(I) with respect to a Price-Anderson incident, funds already available under the Price-Anderson Act should be used; and

(J) with respect to a nuclear incident outside the United States not covered by the Price-Anderson Act, a retrospective premium should be prorated among nuclear suppliers relieved from potential liability for which insurance is not available.

(2) Purpose

The purpose of this section is to allocate the contingent costs associated with participation by the United States in the international nuclear liability compensation system established by the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997—

(A) with respect to a Price-Anderson incident, by using funds made available under section

2210 of this title to cover the contingent costs in a manner that neither increases the burdens nor decreases the benefits under section 2210 of this title; and

(B) with respect to a covered incident outside the United States that is not a Price-Anderson incident, by allocating the contingent costs equitably, on the basis of risk, among the class of nuclear suppliers relieved by the Convention from the risk of potential liability resulting from any covered incident outside the United States.

(b) Definitions

In this section:

(1) Commission

The term "Commission" means the Nuclear Regulatory Commission.

Not later than 3 years after December 19, 2007, and every 5 years thereafter, the Secretary shall, by regulation, determine the risk-informed assessment formula for the allocation among nuclear suppliers of the contingent cost resulting from a covered incident that is not a Price-Anderson incident, taking into account risk factors such as—

(I) the nature and intended purpose of the goods and services supplied by each nuclear supplier to each covered installation outside the United States;

(II) the quantity of the goods and services supplied by each nuclear supplier to each covered installation outside the United States;

(III) the hazards associated with the supplied goods and services if the goods and services fail to achieve the intended purposes;

The Assistant Secretary of the Office of Electricity Delivery and Energy Reliability shall establish, within 90 days of December 19, 2007, a Smart Grid Task Force composed of designated employees from the various divisions of that office who have responsibilities related to the transition to smart-grid technologies and practices. The Assistant Secretary or his designee shall be identified as the Director of the Smart Grid Task Force. The Chairman of the Federal Energy Regulatory Commission and the Director of the National Institute of Standards and Technology shall each designate at least one employee to participate on the Smart Grid Task Force. Other members may come from other agencies at the invitation of the Assistant Secretary or the nomination of the head of such other agency. The Smart Grid Task Force shall, without disrupting the work of the Divisions or Offices from which its members are drawn, provide an identifiable Federal entity to embody the Federal role in the national transition toward development and use of smart grid technologies.

(2) Mission

The mission of the Smart Grid Task Force shall be to insure awareness, coordination and

integration of the diverse activities of the Office and elsewhere in the Federal Government related to smart-grid technologies and practices, including but not limited to: smart grid research and development; development of widely accepted smart-grid standards and protocols; the relationship of smart-grid technologies and practices to electric utility regulation; the relationship of smart-grid technologies and practices to infrastructure development, system reliability and security; and the relationship of smart-grid technologies and practices to other facets of electricity supply, demand, transmission, distribution, and policy. The Smart Grid Task Force shall collaborate with the Smart Grid Advisory Committee and other Federal agencies and offices. The Smart Grid Task Force shall meet at the call of its Director as necessary to accomplish its mission.

(c) Authorization

There are authorized to be appropriated for the purposes of this section such sums as are necessary to the Secretary to support the operations of the Smart Grid Advisory Committee and Smart Grid Task Force for each of fiscal years 2008 through 2020.

§17384. Smart grid technology research, development, and demonstration

(a) Power grid digital information technology

The Secretary, in consultation with the Federal Energy Regulatory Commission and other appropriate agencies, electric utilities, the States, and other stakeholders, shall carry out a program—

(1) to develop advanced techniques for measuring peak load reductions and energy-efficiency savings from smart metering, demand response, distributed generation, and electricity storage systems;

(2) to investigate means for demand response, distributed generation, and storage to provide ancillary services;

(3) to conduct research to advance the use of wide-area measurement and control networks, including data mining, visualization, advanced computing, and secure and dependable communications in a highly-distributed environment;

(4) to test new reliability technologies, including those concerning communications network capabilities, in a grid control room environment against a representative set of local outage and wide area blackout scenarios;

(5) to identify communications network capacity needed to implement advanced technologies.[1]

(6) to investigate the feasibility of a transition to time-of-use and real-time electricity pricing;

(7) to develop algorithms for use in electric transmission system software applications;

(8) to promote the use of underutilized electricity generation capacity in any substitution of electricity for liquid fuels in the transportation system of the United States; and

(9) in consultation with the Federal Energy Regulatory Commission, to propose interconnection protocols to enable electric utilities to access electricity stored in vehicles to help meet peak demand loads.

(b) Smart grid regional demonstration initiative

(1) In general

The Secretary shall establish a smart grid regional demonstration initiative (referred to in this subsection as the "Initiative") composed of demonstration projects specifically focused on advanced technologies for use in power grid sensing, communications, analysis, and power flow control. The Secretary shall seek to leverage existing smart grid deployments.

(2) Goals

The goals of the Initiative shall be—

(A) to demonstrate the potential benefits of concentrated investments in advanced grid technologies on a regional grid;

(B) to facilitate the commercial transition from the current power transmission and distribution system technologies to advanced technologies;

(C) to facilitate the integration of advanced technologies in existing electric networks to improve system performance, power flow control, and reliability;

(D) to demonstrate protocols and standards that allow for the measurement and validation of the energy savings and fossil fuel emission reductions associated with the installation and use of energy efficiency and demand response technologies and practices; and

(E) to investigate differences in each region and regulatory environment regarding best practices in implementing smart grid technologies.

(3) Demonstration projects

(A) In general

In carrying out the initiative,[2] the Secretary shall provide financial support to smart grid demonstration projects in urban, suburban, tribal, and rural areas, including areas where electric system assets are controlled by nonprofit entities and areas where electric system assets are controlled by investor-owned utilities.

No person or entity participating in any demonstration project conducted under this subsection shall be eligible for grants under section 17386 of this title for otherwise qualifying investments made as part of that demonstration project.

(E) Availability of data

The Secretary shall establish and maintain a smart grid information clearinghouse in a timely manner which will make data from smart grid demonstration projects and other sources available to the public. As a condition of receiving financial assistance under this subsection, a utility or other participant in a smart grid demonstration project shall provide such information as the Secretary may require to become available through the smart grid information clearinghouse in the form and within the timeframes as directed by the Secretary. The Secretary shall assure that business proprietary information and individual customer information is not included in the information made available through the clearinghouse.

§17385. Smart grid interoperability framework

(a) Interoperability framework

The Director of the National Institute of Standards and Technology shall have primary responsibility to coordinate the development of a framework that includes protocols and model standards for information management to achieve interoperability of smart grid devices and systems. Such protocols and standards shall further align policy, business, and technology approaches in a manner that would enable all electric resources, including demand-side resources, to contribute to an efficient, reliable electricity network. In developing such protocols and standards—

(1) the Director shall seek input and cooperation from the Commission, OEDER and its Smart Grid Task Force, the Smart Grid Advisory Committee, other relevant Federal and State agencies; and

(2) the Director shall also solicit input and cooperation from private entities interested in such protocols and standards, including but not limited to the Gridwise Architecture Council, the International Electrical and Electronics Engineers, the National Electric Reliability Organization recognized by the Federal Energy Regulatory Commission, and National Electrical Manufacturer's Association.

(b) Scope of framework

The framework developed under subsection (a) shall be flexible, uniform and technology neutral, including but not limited to technologies for managing smart grid information, and designed—

(1) to accommodate traditional, centralized generation and transmission resources and consumer distributed resources, including distributed generation, renewable generation, energy storage, energy efficiency, and demand response and enabling devices and systems;

(2) to be flexible to incorporate—

(A) regional and organizational differences; and

(B) technological innovations;

(3) to consider the use of voluntary uniform standards for certain classes of mass-produced electric appliances and equipment for homes and businesses that enable customers, at their election and consistent with applicable State and Federal laws, and are manufactured with the ability to respond to electric grid emergencies and demand response signals by curtailing all, or a

portion of, the electrical power consumed by the appliances or equipment in response to an emergency or demand response signal, including through—

(A) load reduction to reduce total electrical demand;

(B) adjustment of load to provide grid ancillary services; and

(C) in the event of a reliability crisis that threatens an outage, short-term load shedding to help preserve the stability of the grid; and

(4) such voluntary standards should incorporate appropriate manufacturer lead time.[1]

(c) Timing of framework development

The Institute shall begin work pursuant to this section within 60 days of December 19, 2007. The Institute shall provide and publish an initial report on progress toward recommended or consensus standards and protocols within 1 year after December 19, 2007, further reports at such times as developments warrant in the judgment of the Institute, and a final report when the Institute determines that the work is completed or that a Federal role is no longer necessary.

(d) Standards for interoperability in Federal jurisdiction

At any time after the Institute's work has led to sufficient consensus in the Commission's judgment, the Commission shall institute a rulemaking proceeding to adopt such standards and protocols as may be necessary to insure smart-grid functionality and interoperability in interstate transmission of electric power, and regional and wholesale electricity markets.

(e) Authorization

There are authorized to be appropriated for the purposes of this section $5,000,000 to the Institute to support the activities required by this subsection [2] for each of fiscal years 2008 through 2012.

CHAPTER 153—COMMUNITY SAFETY THROUGH RECIDIVISM PREVENTION

Sec.

§17501. Purposes; findings

(a) Purposes

The purposes of the Act are—

(1) to break the cycle of criminal recidivism, increase public safety, and help States, local units of government, and Indian Tribes, better address the growing population of criminal offenders who return to their communities and commit new crimes;

(2) to rebuild ties between offenders and their families, while the offenders are incarcerated and after reentry into the community, to promote stable families and communities;

(3) to encourage the development and support of, and to expand the availability of, evidence-based programs that enhance public safety and reduce recidivism, such as substance abuse treatment, alternatives to incarceration, and comprehensive reentry services;

(4) to protect the public and promote law-abiding conduct by providing necessary services to offenders, while the offenders are incarcerated and after reentry into the community, in a manner that does not confer luxuries or privileges upon such offenders;

(5) to assist offenders reentering the community from incarceration to establish a self-sustaining and law-abiding life by providing sufficient transitional services for as short of a period as practicable, not to exceed one year, unless a longer period is specifically determined to be necessary by a medical or other appropriate treatment professional; and

(6) to provide offenders in prisons, jails or juvenile facilities with educational, literacy, vocational, and job placement services to facilitate re-entry into the community.

(b) Findings

Congress finds the following:

(1) In 2002, over 7,000,000 people were incarcerated in Federal or State prisons or in local jails. Nearly 650,000 people are released from Federal and State incarceration into communities nationwide each year.

(2) There are over 3,200 jails throughout the United States, the vast majority of which are operated by county governments. Each year, these jails will release more than 10,000,000 people back into the community.

(3) Recent studies indicate that over 2/3 of released State prisoners are expected to be rearrested for a felony or serious misdemeanor within 3 years after release.

(4) According to the Bureau of Justice Statistics, expenditures on corrections alone increased from $9,000,000,000 in 1982, to $59,600,000,000 in 2002. These figures do not include the cost of arrest and prosecution, nor do they take into account the cost to victims.

(5) The Serious and Violent Offender Reentry Initiative (SVORI) provided $139,000,000 in funding for State governments to develop and implement education, job training, mental health treatment, and substance abuse treatment for serious and violent offenders. This Act seeks to build upon the innovative and successful State reentry programs developed under the SVORI, which terminated after fiscal year 2005.

(6) Between 1991 and 1999, the number of children with a parent in a Federal or State correctional facility increased by more than 100 percent, from approximately 900,000 to approximately 2,000,000. According to the Bureau of Prisons, there is evidence to suggest that inmates who are connected to their children and families are more likely to avoid negative incidents and have reduced sentences.

(7) Released prisoners cite family support as the most important factor in helping them stay out of prison. Research suggests that families are an often underutilized resource in the reentry process.

(8) Approximately 100,000 juveniles (ages 17 years and under) leave juvenile correctional facilities, State prison, or Federal prison each year. Juveniles released from secure confinement still have their likely prime crime years ahead of them. Juveniles released from secure confinement have a recidivism rate ranging from 55 to 75 percent. The chances that young people will successfully transition into society improve with effective reentry and aftercare programs.

(9) Studies have shown that between 15 percent and 27 percent of prisoners expect to go to homeless shelters upon release from prison.

(10) Fifty-seven percent of Federal and 70 percent of State inmates used drugs regularly before going to prison, and the Bureau of Justice statistics report titled "Trends in State Parole, 1990–2000" estimates the use of drugs or alcohol around the time of the offense that resulted in the incarceration of the inmate at as high as 84 percent.

(11) Family-based treatment programs have proven results for serving the special populations of female offenders and substance abusers with children. An evaluation by the Substance Abuse and

Mental Health Services Administration of family-based treatment for substance-abusing mothers and children found that 6 months after such treatment, 60 percent of the mothers remained alcohol and drug free, and drug-related offenses declined from 28 percent to 7 percent. Additionally, a 2003 evaluation of residential family-based treatment programs revealed that 60 percent of mothers remained clean and sober 6 months after treatment, criminal arrests declined by 43 percent, and 88 percent of the children treated in the program with their mothers remained stabilized.

(12) A Bureau of Justice Statistics analysis indicated that only 33 percent of Federal inmates and 36 percent of State inmates had participated in residential in-patient treatment programs for alcohol and drug abuse 12 months before their release. Further, over one-third of all jail inmates have some physical or mental disability and 25 percent of jail inmates have been treated at some time for a mental or emotional problem.

(13) State Substance Abuse Agency Directors, also known as Single State Authorities, manage the publicly funded substance abuse prevention and treatment system of the Nation. Single State Authorities are responsible for planning and implementing statewide systems of care that provide clinically appropriate substance abuse services. Given the high rate of substance use disorders among offenders reentering our communities, successful reentry programs require close interaction and collaboration with each Single State Authority as the program is planned, implemented, and evaluated.

(14) According to the National Institute of Literacy, 70 percent of all prisoners function at the lowest literacy levels.

(15) Less than 32 percent of State prison inmates have a high school diploma or a higher level of education, compared to 82 percent of the general population.

(16) Approximately 38 percent of inmates who completed 11 years or less of school were not working before entry into prison.

(17) The percentage of State prisoners participating in educational programs decreased by more than 8 percent between 1991 and 1997, despite growing evidence of how educational programming while incarcerated reduces recidivism.

(18) The National Institute of Justice has found that 1 year after release, up to 60 percent of former inmates are not employed.

(19) Transitional jobs programs have proven to help people with criminal records to successfully return to the workplace and to the community, and therefore can reduce recidivism.

PROMOTING REHABILITATION AND REINTEGRATION OF FORMERLY INCARCERATED INDIVIDUALS

Memorandum of President of the United States, Apr. 29, 2016, 81 F.R. 26993, provided:

Memorandum for the Heads of Executive Departments and Agencies

America is a Nation of second chances. Promoting the rehabilitation and reintegration of individuals who have paid their debt to society makes communities safer by reducing recidivism and victimization; assists those who return from prison, jail, or juvenile justice facilities to become productive citizens; and saves

taxpayer dollars by lowering the direct and collateral costs of incarceration. Policies that limit opportunities for people with criminal records create barriers to employment, education, housing, health care, and civic participation. This lack of opportunity decreases public safety, increases costs to society, and tears at the fabric of our Nation's communities.

Reducing the cycle of incarceration and recidivism requires coordinated action by government at all levels. Estimates are that as many as 70 million or more Americans have a record of arrest, criminal adjudication, or conviction. Each year, more than 600,000 individuals are released from Federal and State correctional facilities. Millions more are released each year from local jails. In many cases, a criminal record is an obstacle to obtaining employment or a license related to or necessary for employment. However, many individuals have criminal histories that should not automatically disqualify them from employment or licensing, but should instead be examined as part of a review of the person as a whole. Providing incarcerated individuals with job and life skills, education programming, and mental health and addiction treatment increases the likelihood that such individuals will be successful when released. And removing barriers to successful reentry helps formerly incarcerated individuals compete for jobs, attain stable housing, and support their families. All of these are critical to reducing recidivism and strengthening communities.

In 2011, the Attorney General formed the Federal Interagency Reentry Council, a Cabinet-level working group dedicated to the rehabilitation and reintegration of individuals returning to their communities from prisons and jails. I am issuing this memorandum to ensure that the Federal Government continues the important work of this council and builds on its successes.

By the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby direct the following:

SECTION 1. *Establishing the Federal Interagency Reentry Council*. (a) There is hereby established the Federal Interagency Reentry Council (Reentry Council), to be co-chaired by the Attorney General and the Director of the White House Domestic Policy Council. In addition to the Co-Chairs, the Reentry Council shall include the heads of:

(i) the Department of the Treasury;
(ii) the Department of the Interior;
(iii) the Department of Agriculture;
(iv) the Department of Commerce;
(v) the Department of Labor;
(vi) the Department of Health and Human Services;
(vii) the Department of Housing and Urban Development;
(viii) the Department of Transportation;
(ix) the Department of Energy;
(x) the Department of Education;
(xi) the Department of Veterans Affairs;
(xii) the Department of Homeland Security;

The notification may be provided in one or more mailings as information is available.

(B) In the case in which there is insufficient, or out-of-date contact information (including a phone number, email address, or any other form of appropriate communication) that precludes direct written (or, if specified by the individual under subparagraph (A), electronic) notification to the individual, a substitute form of notice shall be provided, including, in the case that there are 10 or more individuals for which there is insufficient or out-of-date contact information, a conspicuous posting for a period determined by the Secretary on the home page of the Web site of the covered entity involved or notice in major print or broadcast media, including major media in geographic areas where the individuals affected by the breach likely reside. Such a notice in media or web posting will include a toll-free phone number where an individual can learn whether or not the individual's unsecured protected health information is possibly included in the breach.

(C) In any case deemed by the covered entity involved to require urgency because of possible imminent misuse of unsecured protected health information, the covered entity, in addition to notice provided under subparagraph (A), may provide information to individuals by telephone or other means, as appropriate.

(2) Media notice

Notice shall be provided to prominent media outlets serving a State or jurisdiction, following the discovery of a breach described in subsection (a), if the unsecured protected health information of more than 500 residents of such State or jurisdiction is, or is reasonably believed to have been, accessed, acquired, or disclosed during such breach.

(3) Notice to Secretary

Notice shall be provided to the Secretary by covered entities of unsecured protected health information that has been acquired or disclosed in a breach. If the breach was with respect to 500 or more individuals than [1] such notice must be provided immediately. If the breach was with respect to less than 500 individuals, the covered entity may maintain a log of any such breach occurring and annually submit such a log to the Secretary documenting such breaches occurring during the year involved.

(4) Posting on HHS public website

The Secretary shall make available to the public on the Internet website of the Department of Health and Human Services a list that identifies each covered entity involved in a breach described in subsection (a) in which the unsecured protected health information of more than 500 individuals is acquired or disclosed.

(f) Content of notification

Regardless of the method by which notice is provided to individuals under this section, notice of a breach shall include, to the extent possible, the following:

(1) A brief description of what happened, including the date of the breach and the date of the discovery of the breach, if known.

(2) A description of the types of unsecured protected health information that were involved in the breach (such as full name, Social Security number, date of birth, home address, account number, or disability code).

(3) The steps individuals should take to protect themselves from potential harm resulting from the breach.

(4) A brief description of what the covered entity involved is doing to investigate the breach, to mitigate losses, and to protect against any further breaches.

(5) Contact procedures for individuals to ask questions or learn additional information, which shall include a toll-free telephone number, an e-mail address, Web site, or postal address.

(g) Delay of notification authorized for law enforcement purposes

If a law enforcement official determines that a notification, notice, or posting required under this section would impede a criminal investigation or cause damage to national security, such notification, notice, or posting shall be delayed in the same manner as provided under section 164.528(a)(2) of title 45, Code of Federal Regulations, in the case of a disclosure covered under such section.

§17935. Restrictions on certain disclosures and sales of health information; accounting of certain protected health information disclosures; access to certain information in electronic format

(a) Requested restrictions on certain disclosures of health information

In the case that an individual requests under paragraph (a)(1)(i)(A) of section 164.522 of title 45, Code of Federal Regulations, that a covered entity restrict the disclosure of the protected health information of the individual, notwithstanding paragraph (a)(1)(ii) of such section, the covered entity must comply with the requested restriction if—

(1) except as otherwise required by law, the disclosure is to a health plan for purposes of carrying out payment or health care operations (and is not for purposes of carrying out treatment); and

(2) the protected health information pertains solely to a health care item or service for which the health care provider involved has been paid out of pocket in full.

(b) Disclosures required to be limited to the limited data set or the minimum necessary

(1) In general

(A) In general

Subject to subparagraph (B), a covered entity shall be treated as being in compliance with section 164.502(b)(1) of title 45, Code of Federal Regulations, with respect to the use, disclosure, or request of protected health information described in such section, only if the covered entity limits such protected health information, to the extent practicable, to the limited data set (as defined in section 164.514(e)(2) of such title) or, if needed by such entity, to the minimum necessary to accomplish the intended purpose of such use, disclosure, or request, respectively.

(B) Guidance

Not later than 18 months after February 17, 2009, the Secretary shall issue guidance on what constitutes "minimum necessary" for purposes of subpart E of part 164 of title 45, Code of

Federal Regulation.[1] In issuing such guidance the Secretary shall take into consideration the guidance under section 17953(c) of this title and the information necessary to improve patient outcomes and to detect, prevent, and manage chronic disease.

(C) Sunset

Subparagraph (A) shall not apply on and after the effective date on which the Secretary issues the guidance under subparagraph (B).

(2) Determination of minimum necessary

For purposes of paragraph (1), in the case of the disclosure of protected health information, the covered entity or business associate disclosing such information shall determine what constitutes the minimum necessary to accomplish the intended purpose of such disclosure.

(3) Application of exceptions

The exceptions described in section 164.502(b)(2) of title 45, Code of Federal Regulations, shall apply to the requirement under paragraph (1) as of the effective date described in section 13423 [2] in the same manner that such exceptions apply to section 164.502(b)(1) of such title before such date.

(4) Rule of construction

Nothing in this subsection shall be construed as affecting the use, disclosure, or request of protected health information that has been de-identified.

(c) Accounting of certain protected health information disclosures required if covered entity uses electronic health record

(1) In general

In applying section 164.528 of title 45, Code of Federal Regulations, in the case that a covered entity uses or maintains an electronic health record with respect to protected health information—

(A) the exception under paragraph (a)(1)(i) of such section shall not apply to disclosures through an electronic health record made by such entity of such information; and

(B) an individual shall have a right to receive an accounting of disclosures described in such paragraph of such information made by such covered entity during only the three years prior to the date on which the accounting is requested.

(2) Regulations

The Secretary shall promulgate regulations on what information shall be collected about each disclosure referred to in paragraph (1), not later than 6 months after the date on which the Secretary adopts standards on accounting for disclosure described in the [3] section 300jj–12(b)(2)(B)(iv) of this title, as added by section 13101.[2] Such regulations shall only require such information to be collected through an electronic health record in a manner that takes into account the interests of the individuals in learning the circumstances under which their protected health information is being disclosed and takes into account the administrative burden of accounting for such disclosures.

(3) Process

In response to an [4] request from an individual for an accounting, a covered entity shall elect to provide either an—

(A) accounting, as specified under paragraph (1), for disclosures of protected health information that are made by such covered entity and by a business associate acting on behalf of the covered entity; or

(B) accounting, as specified under paragraph (1), for disclosures that are made by such covered entity and provide a list of all business associates acting on behalf of the covered entity, including contact information for such associates (such as mailing address, phone, and email address).

A business associate included on a list under subparagraph (B) shall provide an accounting of disclosures (as required under paragraph (1) for a covered entity) made by the business associate upon a request made by an individual directly to the business associate for such an accounting.

(4) Effective date

(A) Current users of electronic records

In the case of a covered entity insofar as it acquired an electronic health record as of January 1, 2009, paragraph (1) shall apply to disclosures, with respect to protected health information, made by the covered entity from such a record on and after January 1, 2014.

(B) Others

In the case of a covered entity insofar as it acquires an electronic health record after January 1, 2009, paragraph (1) shall apply to disclosures, with respect to protected health information, made by the covered entity from such record on and after the later of the following:

(i) January 1, 2011; or

(ii) the date that it acquires an electronic health record.

(C) Later date

The Secretary may set an effective date that is later that [5] the date specified under subparagraph (A) or (B) if the Secretary determines that such later date is necessary, but in no case may the date specified under—

(i) subparagraph (A) be later than 2016; or

(ii) subparagraph (B) be later than 2013.

(d) Prohibition on sale of electronic health records or protected health information

(1) In general

Except as provided in paragraph (2), a covered entity or business associate shall not directly or indirectly receive remuneration in exchange for any protected health information of an individual unless the covered entity obtained from the individual, in accordance with section 164.508 of title 45, Code of Federal Regulations, a valid authorization that includes, in accordance with such section, a specification of whether the protected health information can be further exchanged for remuneration by the entity receiving protected health information of that individual.

(2) Exceptions

Paragraph (1) shall not apply in the following cases:

(A) The purpose of the exchange is for public health activities (as described in section 164.512(b) of title 45, Code of Federal Regulations).

(B) The purpose of the exchange is for research (as described in sections 164.501 and 164.512(i) of title 45, Code of Federal Regulations) and the price charged reflects the costs of preparation and transmittal of the data for such purpose.

(C) The purpose of the exchange is for the treatment of the individual, subject to any regulation that the Secretary may promulgate to prevent protected health information from inappropriate access, use, or disclosure.

(D) The purpose of the exchange is the health care operation specifically described in subparagraph (iv) of paragraph (6) of the definition of healthcare operations in section 164.501 of title 45, Code of Federal Regulations.

(E) The purpose of the exchange is for remuneration that is provided by a covered entity to a business associate for activities involving the exchange of protected health information that the business associate undertakes on behalf of and at the specific request of the covered entity pursuant to a business associate agreement.

(F) The purpose of the exchange is to provide an individual with a copy of the individual's protected health information pursuant to section 164.524 of title 45, Code of Federal Regulations.

(G) The purpose of the exchange is otherwise determined by the Secretary in regulations to

be similarly necessary and appropriate as the exceptions provided in subparagraphs (A) through (F).

(3) Regulations

Not later than 18 months after February 17, 2009, the Secretary shall promulgate regulations to carry out this subsection. In promulgating such regulations, the Secretary—

(A) shall evaluate the impact of restricting the exception described in paragraph (2)(A) to require that the price charged for the purposes described in such paragraph reflects the costs of the preparation and transmittal of the data for such purpose, on research or public health activities, including those conducted by or for the use of the Food and Drug Administration; and

(B) may further restrict the exception described in paragraph (2)(A) to require that the price charged for the purposes described in such paragraph reflects the costs of the preparation and transmittal of the data for such purpose, if the Secretary finds that such further restriction will not impede such research or public health activities.

(4) Effective date

Paragraph (1) shall apply to exchanges occurring on or after the date that is 6 months after the date of the promulgation of final regulations implementing this subsection.

(e) Access to certain information in electronic format

In applying section 164.524 of title 45, Code of Federal Regulations, in the case that a covered entity uses or maintains an electronic health record with respect to protected health information of an individual—

(1) the individual shall have a right to obtain from such covered entity a copy of such information in an electronic format and, if the individual chooses, to direct the covered entity to transmit such copy directly to an entity or person designated by the individual, provided that any such choice is clear, conspicuous, and specific;

(2) if the individual makes a request to a business associate for access to, or a copy of, protected health information about the individual, or if an individual makes a request to a business associate to grant such access to, or transmit such copy directly to, a person or entity designated by the individual, a business associate may provide the individual with such access or copy, which may be in an electronic form, or grant or transmit such access or copy to such person or entity designated by the individual; and

(3) notwithstanding paragraph (c)(4) of such section, any fee that the covered entity may impose for providing such individual with a copy of such information (or a summary or explanation of such information) if such copy (or summary or explanation) is in an electronic form shall not be greater than the entity's labor costs in responding to the request for the copy (or summary or explanation).

(C) agree to utilize contract funding to establish and administer a qualified high risk pool for eligible individuals.

(3) Maintenance of effort

(c) Qualified high risk pool

(1) In general

Amounts made available under this section shall be used to establish a qualified high risk pool that meets the requirements of paragraph (2).

(2) Requirements

A qualified high risk pool meets the requirements of this paragraph if such pool—

(A) provides to all eligible individuals health insurance coverage that does not impose any preexisting condition exclusion with respect to such coverage;

(B) provides health insurance coverage—

(i) in which the issuer's share of the total allowed costs of benefits provided under such coverage is not less than 65 percent of such costs; and

(ii) that has an out of pocket limit not greater than the applicable amount described in section 223(c)(2) of title 26 for the year involved, except that the Secretary may modify such limit if necessary to ensure the pool meets the actuarial value limit under clause (i);

(C) ensures that with respect to the premium rate charged for health insurance coverage offered to eligible individuals through the high risk pool, such rate shall—

(i) except as provided in clause (ii), vary only as provided for under section 300gg of this title (as amended by this Act and notwithstanding the date on which such amendments take effect);

(3) has a pre-existing condition, as determined in a manner consistent with guidance issued by the Secretary.

(e) Protection against dumping risk by insurers

(1) In general

The Secretary shall establish criteria for determining whether health insurance issuers and employment-based health plans have discouraged an individual from remaining enrolled in prior coverage based on that individual's health status.

(2) Sanctions

An issuer or employment-based health plan shall be responsible for reimbursing the program under this section for the medical expenses incurred by the program for an individual who, based on criteria established by the Secretary, the Secretary finds was encouraged by the issuer to disenroll from health benefits coverage prior to enrolling in coverage through the program. The criteria shall include at least the following circumstances:

(A) In the case of prior coverage obtained through an employer, the provision by the employer, group health plan, or the issuer of money or other financial consideration for disenrolling from the coverage.

(B) In the case of prior coverage obtained directly from an issuer or under an employment-based health plan—

(i) the provision by the issuer or plan of money or other financial consideration for disenrolling from the coverage; or

(ii) in the case of an individual whose premium for the prior coverage exceeded the premium required by the program (adjusted based on the age factors applied to the prior coverage)—

(I) the prior coverage is a policy that is no longer being actively marketed (as defined by the Secretary) by the issuer; or

(II) the prior coverage is a policy for which duration of coverage form [1] issue or health status are factors that can be considered in determining premiums at renewal.

(3) Construction

Nothing in this subsection shall be construed as constituting exclusive remedies for violations of criteria established under paragraph (1) or as preventing States from applying or enforcing such paragraph or other provisions under law with respect to health insurance issuers.

(f) Oversight

The Secretary shall establish—

(1) an appeals process to enable individuals to appeal a determination under this section; and

(2) procedures to protect against waste, fraud, and abuse.

(g) Funding; termination of authority

(1) In general

There is appropriated to the Secretary, out of any moneys in the Treasury not otherwise appropriated, $5,000,000,000 to pay claims against (and the administrative costs of) the high risk pool under this section that are in excess of the amount of premiums collected from eligible individuals enrolled in the high risk pool. Such funds shall be available without fiscal year limitation.

(2) Insufficient funds

If the Secretary estimates for any fiscal year that the aggregate amounts available for the payment of the expenses of the high risk pool will be less than the actual amount of such expenses, the Secretary shall make such adjustments as are necessary to eliminate such deficit.

(3) Termination of authority

(A) In general

Except as provided in subparagraph (B), coverage of eligible individuals under a high risk pool in a State shall terminate on January 1, 2014.

(B) Transition to Exchange

The Secretary shall develop procedures to provide for the transition of eligible individuals enrolled in health insurance coverage offered through a high risk pool established under this section into qualified health plans offered through an Exchange. Such procedures shall ensure that there is no lapse in coverage with respect to the individual and may extend coverage after the termination of the risk pool involved, if the Secretary determines necessary to avoid such a lapse.

(4) Limitations

The Secretary has the authority to stop taking applications for participation in the program under this section to comply with the funding limitation provided for in paragraph (1).

(5) Relation to State laws

The standards established under this section shall supersede any State law or regulation (other than State licensing laws or State laws relating to plan solvency) with respect to qualified high risk pools which are established in accordance with this section.

§18002. Reinsurance for early retirees

(a) Administration

(1) In general

Not later than 90 days after March 23, 2010, the Secretary shall establish a temporary reinsurance program to provide reimbursement to participating employment-based plans for a portion of the cost of providing health insurance coverage to early retirees (and to the eligible spouses, surviving spouses, and dependents of such retirees) during the period beginning on the date on which such program is established and ending on January 1, 2014.

(2) Reference

In this section:

(A) Health benefits

The term "health benefits" means medical, surgical, hospital, prescription drug, and such other benefits as shall be determined by the Secretary, whether self-funded, or delivered through the purchase of insurance or otherwise.

(B) Employment-based plan

The term "employment-based plan" means a group benefits plan providing health benefits that—

(i) is—

(I) maintained by one or more current or former employers (including without limitation any State or local government or political subdivision thereof or any agency or instrumentality of any of the foregoing), employee organization, a voluntary employees' beneficiary association, or a committee or board of individuals appointed to administer such plan; or

(II) a multiemployer plan (as defined in section 1002(37) of title 29); and

(ii) provides health benefits to early retirees.

(C) Early retirees

The term "early retirees" means individuals who are age 55 and older but are not eligible for coverage under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.], and who are not active employees of an employer maintaining, or currently contributing to, the employment-based plan or of any employer that has made substantial contributions to fund such plan.

(b) Participation

(1) Employment-based plan eligibility

A participating employment-based plan is an employment-based plan that—

(A) meets the requirements of paragraph (2) with respect to health benefits provided under the plan; and

(B) submits to the Secretary an application for participation in the program, at such time, in such manner, and containing such information as the Secretary shall require.

(2) Employment-based health benefits

An employment-based plan meets the requirements of this paragraph if the plan—

(A) implements programs and procedures to generate cost-savings with respect to participants with chronic and high-cost conditions;

(B) provides documentation of the actual cost of medical claims involved; and

(C) is certified by the Secretary.

(c) Payments

(1) Submission of claims

(A) In general

A participating employment-based plan shall submit claims for reimbursement to the Secretary which shall contain documentation of the actual costs of the items and services for which each claim is being submitted.

(B) Basis for claims

Claims submitted under subparagraph (A) shall be based on the actual amount expended by the participating employment-based plan involved within the plan year for the health benefits provided to an early retiree or the spouse, surviving spouse, or dependent of such retiree. In determining the amount of a claim for purposes of this subsection, the participating employment-based plan shall take into account any negotiated price concessions (such as discounts, direct or indirect subsidies, rebates, and direct or indirect remunerations) obtained by such plan with respect to such health benefit. For purposes of determining the amount of any such claim, the costs paid by the early retiree or the retiree's spouse, surviving spouse, or dependent in the form of deductibles, co-payments, or co-insurance shall be included in the amounts paid by the participating employment-based plan.

(2) Program payments

If the Secretary determines that a participating employment-based plan has submitted a valid claim under paragraph (1), the Secretary shall reimburse such plan for 80 percent of that portion of the costs attributable to such claim that exceed $15,000, subject to the limits contained in paragraph (3).

(3) Limit

To be eligible for reimbursement under the program, a claim submitted by a participating employment-based plan shall not be less than $15,000 nor greater than $90,000. Such amounts shall be adjusted each fiscal year based on the percentage increase in the Medical Care Component of the Consumer Price Index for all urban consumers (rounded to the nearest multiple of $1,000) for the year involved.

(4) Use of payments

Amounts paid to a participating employment-based plan under this subsection shall be used to lower costs for the plan. Such payments may be used to reduce premium costs for an entity described in subsection (a)(2)(B)(i) or to reduce premium contributions, co-payments, deductibles, co-insurance, or other out-of-pocket costs for plan participants. Such payments shall not be used as general revenues for an entity described in subsection (a)(2)(B)(i). The Secretary shall develop a mechanism to monitor the appropriate use of such payments by such entities.

(5) Payments not treated as income

Payments received under this subsection shall not be included in determining the gross income of an entity described in subsection (a)(2)(B)(i) that is maintaining or currently contributing to a participating employment-based plan.

(6) Appeals

The Secretary shall establish—

(A) an appeals process to permit participating employment-based plans to appeal a

determination of the Secretary with respect to claims submitted under this section; and

(B) procedures to protect against fraud, waste, and abuse under the program.

(d) Audits

The Secretary shall conduct annual audits of claims data submitted by participating employment-based plans under this section to ensure that such plans are in compliance with the requirements of this section.

(e) Funding

There is appropriated to the Secretary, out of any moneys in the Treasury not otherwise appropriated, $5,000,000,000 to carry out the program under this section. Such funds shall be available without fiscal year limitation.

(f) Limitation

The Secretary has the authority to stop taking applications for participation in the program based on the availability of funding under subsection (e).

(2) Limitation

(A) In general

The Secretary shall ensure that the scope of the essential health benefits under paragraph (1) is equal to the scope of benefits provided under a typical employer plan, as determined by the Secretary. To inform this determination, the Secretary of Labor shall conduct a survey of employer-sponsored coverage to determine the benefits typically covered by employers, including multiemployer plans, and provide a report on such survey to the Secretary.

(B) Certification

In defining the essential health benefits described in paragraph (1), and in revising the benefits under paragraph (4)(H), the Secretary shall submit a report to the appropriate committees of Congress containing a certification from the Chief Actuary of the Centers for Medicare & Medicaid Services that such essential health benefits meet the limitation described in paragraph (2).

(3) Notice and hearing

In defining the essential health benefits described in paragraph (1), and in revising the benefits under paragraph (4)(H), the Secretary shall provide notice and an opportunity for public comment.

(4) Required elements for consideration

In defining the essential health benefits under paragraph (1), the Secretary shall—

(A) ensure that such essential health benefits reflect an appropriate balance among the categories described in such subsection,[2] so that benefits are not unduly weighted toward any category;

(B) not make coverage decisions, determine reimbursement rates, establish incentive programs, or design benefits in ways that discriminate against individuals because of their age, disability, or expected length of life;

(C) take into account the health care needs of diverse segments of the population, including women, children, persons with disabilities, and other groups;

(D) ensure that health benefits established as essential not be subject to denial to individuals against their wishes on the basis of the individuals' age or expected length of life or of the individuals' present or predicted disability, degree of medical dependency, or quality of life;

(E) provide that a qualified health plan shall not be treated as providing coverage for the essential health benefits described in paragraph (1) unless the plan provides that—

(i) coverage for emergency department services will be provided without imposing any requirement under the plan for prior authorization of services or any limitation on coverage where the provider of services does not have a contractual relationship with the plan for the providing of services that is more restrictive than the requirements or limitations that apply to emergency department services received from providers who do have such a contractual relationship with the plan; and

(ii) if such services are provided out-of-network, the cost-sharing requirement (expressed as a copayment amount or coinsurance rate) is the same requirement that would apply if such services were provided in-network;

(F) provide that if a plan described in section 18031(b)(2)(B)(ii) [3] of this title (relating to stand-alone dental benefits plans) is offered through an Exchange, another health plan offered

through such Exchange shall not fail to be treated as a qualified health plan solely because the plan does not offer coverage of benefits offered through the stand-alone plan that are otherwise required under paragraph (1)(J); and [4]

(G) periodically review the essential health benefits under paragraph (1), and provide a report to Congress and the public that contains—

(i) an assessment of whether enrollees are facing any difficulty accessing needed services for reasons of coverage or cost;

(ii) an assessment of whether the essential health benefits needs to be modified or updated to account for changes in medical evidence or scientific advancement;

(iii) information on how the essential health benefits will be modified to address any such gaps in access or changes in the evidence base;

(iv) an assessment of the potential of additional or expanded benefits to increase costs and the interactions between the addition or expansion of benefits and reductions in existing benefits to meet actuarial limitations described in paragraph (2); and

(H) periodically update the essential health benefits under paragraph (1) to address any gaps in access to coverage or changes in the evidence base the Secretary identifies in the review conducted under subparagraph (G).

(5) Rule of construction

Nothing in this title [1] shall be construed to prohibit a health plan from providing benefits in excess of the essential health benefits described in this subsection.

(c) Requirements relating to cost-sharing

(1) Annual limitation on cost-sharing

(A) 2014

The cost-sharing incurred under a health plan with respect to self-only coverage or coverage other than self-only coverage for a plan year beginning in 2014 shall not exceed the dollar amounts in effect under section 223(c)(2)(A)(ii) of title 26 for self-only and family coverage, respectively, for taxable years beginning in 2014.

(B) 2015 and later

In the case of any plan year beginning in a calendar year after 2014, the limitation under this paragraph shall—

(i) in the case of self-only coverage, be equal to the dollar amount under subparagraph (A) for self-only coverage for plan years beginning in 2014, increased by an amount equal to the product of that amount and the premium adjustment percentage under paragraph (4) for the calendar year; and

(ii) in the case of other coverage, twice the amount in effect under clause (i).

If the amount of any increase under clause (i) is not a multiple of $50, such increase shall be rounded to the next lowest multiple of $50.

(2) Repealed. Pub. L. 113–93, title II, §213(a)(1), Apr. 1, 2014, 128 Stat. 1047

(3) Cost-sharing

In this title— [1]

(A) In general

The term "cost-sharing" includes—

(i) deductibles, coinsurance, copayments, or similar charges; and

(ii) any other expenditure required of an insured individual which is a qualified medical expense (within the meaning of section 223(d)(2) of title 26) with respect to essential health benefits covered under the plan.

(B) Exceptions

Such term does not include premiums, balance billing amounts for non-network providers, or spending for non-covered services.

(4) Premium adjustment percentage

For purposes of paragraph (1)(B)(i), the premium adjustment percentage for any calendar year is the percentage (if any) by which the average per capita premium for health insurance coverage in the United States for the preceding calendar year (as estimated by the Secretary no later than October 1 of such preceding calendar year) exceeds such average per capita premium for 2013 (as determined by the Secretary).

(d) Levels of coverage

(1) Levels of coverage defined

The levels of coverage described in this subsection are as follows:

(A) Bronze level

A plan in the bronze level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 60 percent of the full actuarial value of the benefits provided under the plan.

(B) Silver level

A plan in the silver level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 70 percent of the full actuarial value of the benefits provided under the plan.

(C) Gold level

A plan in the gold level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 80 percent of the full actuarial value of the benefits provided under the plan.

(D) Platinum level

A plan in the platinum level shall provide a level of coverage that is designed to provide benefits that are actuarially equivalent to 90 percent of the full actuarial value of the benefits provided under the plan.

(2) Actuarial value

(A) In general

Under regulations issued by the Secretary, the level of coverage of a plan shall be determined on the basis that the essential health benefits described in subsection (b) shall be provided to a standard population (and without regard to the population the plan may actually provide benefits to).

(B) Employer contributions

The Secretary shall issue regulations under which employer contributions to a health savings account (within the meaning of section 223 of title 26) may be taken into account in determining the level of coverage for a plan of the employer.

(C) Application

In determining under this title,[1] the Public Health Service Act [42 U.S.C. 201 et seq.], or title 26 the percentage of the total allowed costs of benefits provided under a group health plan or health insurance coverage that are provided by such plan or coverage, the rules contained in the regulations under this paragraph shall apply.

(3) Allowable variance

The Secretary shall develop guidelines to provide for a de minimis variation in the actuarial valuations used in determining the level of coverage of a plan to account for differences in

actuarial estimates.

(4) Plan reference

In this title,[1] any reference to a bronze, silver, gold, or platinum plan shall be treated as a reference to a qualified health plan providing a bronze, silver, gold, or platinum level of coverage, as the case may be.

(e) Catastrophic plan

(1) In general

A health plan not providing a bronze, silver, gold, or platinum level of coverage shall be treated as meeting the requirements of subsection (d) with respect to any plan year if—

(A) the only individuals who are eligible to enroll in the plan are individuals described in paragraph (2); and

(B) the plan provides—

(i) except as provided in clause (ii), the essential health benefits determined under subsection (b), except that the plan provides no benefits for any plan year until the individual has incurred cost-sharing expenses in an amount equal to the annual limitation in effect under subsection (c)(1) for the plan year (except as provided for in section 2713); [1] and

(ii) coverage for at least three primary care visits.

(2) Individuals eligible for enrollment

An individual is described in this paragraph for any plan year if the individual—

(A) has not attained the age of 30 before the beginning of the plan year; or

(B) has a certification in effect for any plan year under this title [1] that the individual is exempt from the requirement under section 5000A of title 26 by reason of—

(i) section 5000A(e)(1) of such title (relating to individuals without affordable coverage); or

(ii) section 5000A(e)(5) of such title (relating to individuals with hardships).

(3) Restriction to individual market

If a health insurance issuer offers a health plan described in this subsection, the issuer may only offer the plan in the individual market.

(f) Child-only plans

If a qualified health plan is offered through the Exchange in any level of coverage specified under subsection (d), the issuer shall also offer that plan through the Exchange in that level as a plan in which the only enrollees are individuals who, as of the beginning of a plan year, have not attained the age of 21, and such plan shall be treated as a qualified health plan.

(g) Payments to Federally-qualified health centers

If any item or service covered by a qualified health plan is provided by a Federally-qualified health center (as defined in section 1396d(l)(2)(B) of this title) to an enrollee of the plan, the offeror of the plan shall pay to the center for the item or service an amount that is not less than the amount of payment that would have been paid to the center under section 1396a(bb) of this title) for such item or service.

A State may elect to prohibit abortion coverage in qualified health plans offered through an Exchange in such State if such State enacts a law to provide for such prohibition.

(2) Termination of opt out

(b) Special rules relating to coverage of abortion services

(1) Voluntary choice of coverage of abortion services

(A) In general

Notwithstanding any other provision of this title [1] (or any amendment made by this title)— [1]

(i) nothing in this title [1] (or any amendment made by this title),[1] shall be construed to require a qualified health plan to provide coverage of services described in subparagraph (B)(i) or (B)(ii) as part of its essential health benefits for any plan year; and

(ii) subject to subsection (a), the issuer of a qualified health plan shall determine whether or not the plan provides coverage of services described in subparagraph (B)(i) or (B)(ii) as part of such benefits for the plan year.

(B) Abortion services

(i) Abortions for which public funding is prohibited

(ii) Considerations

In making such estimate, the issuer—

(I) may take into account the impact on overall costs of the inclusion of such coverage, but may not take into account any cost reduction estimated to result from such services, including prenatal care, delivery, or postnatal care;

EX. ORD. NO. 13535. ENSURING ENFORCEMENT AND IMPLEMENTATION OF ABORTION RESTRICTIONS IN THE PATIENT PROTECTION AND AFFORDABLE CARE ACT

Ex. Ord. No. 13535, Mar. 24, 2010, 75 F.R. 15599, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the "Patient Protection and Affordable Care Act" (Public Law 111–148), I hereby order as follows:

SECTION. 1. *Policy*. Following the recent enactment of the Patient Protection and Affordable Care Act (the "Act"), it is necessary to establish an adequate enforcement mechanism to ensure that Federal funds are not used for abortion services (except in cases of rape or incest, or when the life of the woman would be endangered), consistent with a longstanding Federal statutory restriction that is commonly known as the Hyde Amendment. The purpose of this order is to establish a comprehensive, Government-wide set of policies and procedures to achieve this goal and to make certain that all relevant actors—Federal officials, State officials (including insurance regulators) and health care providers—are aware of their responsibilities, new and old.

The Act maintains current Hyde Amendment restrictions governing abortion policy and extends those restrictions to the newly created health insurance exchanges. Under the Act, longstanding Federal laws to protect conscience (such as the Church Amendment, 42 U.S.C. 300a–7, and the Weldon Amendment, section 508(d)(1) of Public Law 111–8) remain intact and new protections prohibit discrimination against health care facilities and health care providers because of an unwillingness to provide, pay for, provide coverage of, or refer for abortions.

Numerous executive agencies have a role in ensuring that these restrictions are enforced, including the Department of Health and Human Services (HHS), the Office of Management and Budget (OMB), and the Office of Personnel Management.

SEC. 2. *Strict Compliance with Prohibitions on Abortion Funding in Health Insurance Exchanges*. The Act specifically prohibits the use of tax credits and cost-sharing reduction payments to pay for abortion services (except in cases of rape or incest, or when the life of the woman would be endangered) in the health insurance exchanges that will be operational in 2014. The Act also imposes strict payment and accounting requirements to ensure that Federal funds are not used for abortion services in exchange plans (except in cases of rape or incest, or when the life of the woman would be endangered) and requires State health insurance commissioners to ensure that exchange plan funds are segregated by insurance companies in accordance with generally accepted accounting principles, OMB funds management circulars, and accounting guidance provided by the Government Accountability Office.

I hereby direct the Director of the OMB and the Secretary of HHS to develop, within 180 days of the date of this order, a model set of segregation guidelines for State health insurance commissioners to use when determining whether exchange plans are complying with the Act's segregation requirements, established in

section 1303 of the Act, for enrollees receiving Federal financial assistance. The guidelines shall also offer technical information that States should follow to conduct independent regular audits of insurance companies that participate in the health insurance exchanges. In developing these model guidelines, the Director of the OMB and the Secretary of HHS shall consult with executive agencies and offices that have relevant expertise in accounting principles, including, but not limited to, the Department of the Treasury, and with the Government Accountability Office. Upon completion of those model guidelines, the Secretary of HHS should promptly initiate a rulemaking to issue regulations, which will have the force of law, to interpret the Act's segregation requirements, and shall provide guidance to State health insurance commissioners on how to comply with the model guidelines.

SEC. 3. *Community Health Center Program*. The Act establishes a new Community Health Center (CHC) Fund within HHS, which provides additional Federal funds for the community health center program. Existing law prohibits these centers from using Federal funds to provide abortion services (except in cases of rape or incest, or when the life of the woman would be endangered), as a result of both the Hyde Amendment and longstanding regulations containing the Hyde language. Under the Act, the Hyde language shall apply to the authorization and appropriations of funds for Community Health Centers under section 10503 and all other relevant provisions. I hereby direct the Secretary of HHS to ensure that program administrators and recipients of Federal funds are aware of and comply with the limitations on abortion services imposed on CHCs by existing law. Such actions should include, but are not limited to, updating Grant Policy Statements that accompany CHC grants and issuing new interpretive rules.

SEC. 4. *General Provisions*. (a) Nothing in this order shall be construed to impair or otherwise affect: (i) authority granted by law or Presidential directive to an agency, or the head thereof; or (ii) functions of the Director of the OMB relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees or agents, or any other person.

BARACK OBAMA.

§18031. Affordable choices of health benefit plans

(a) Assistance to States to establish American Health Benefit Exchanges

(1) Planning and establishment grants

There shall be appropriated to the Secretary, out of any moneys in the Treasury not otherwise appropriated, an amount necessary to enable the Secretary to make awards, not later than 1 year after March 23, 2010, to States in the amount specified in paragraph (2) for the uses described in paragraph (3).

(2) Amount specified

For each fiscal year, the Secretary shall determine the total amount that the Secretary will make available to each State for grants under this subsection.

(4) Renewability of grant

(A) In general

Subject to subsection (d)(4), the Secretary may renew a grant awarded under paragraph (1) if the State recipient of such grant—

(II) implementing the reforms described in subtitles A and C (and the amendments made by such subtitles); and

(ii) is meeting such other benchmarks as the Secretary may establish.

(B) Limitation

No grant shall be awarded under this subsection after January 1, 2015.

The Secretary shall provide technical assistance to States to facilitate the participation of qualified small businesses in such States in SHOP Exchanges.

(b) American Health Benefit Exchanges

(1) In general

Each State shall, not later than January 1, 2014, establish an American Health Benefit Exchange (referred to in this title [1] as an "Exchange") for the State that—

(A) facilitates the purchase of qualified health plans;

(B) provides for the establishment of a Small Business Health Options Program (in this title [1] referred to as a "SHOP Exchange") that is designed to assist qualified employers in the State who are small employers in facilitating the enrollment of their employees in qualified health plans offered in the small group market in the State; and

(C) meets the requirements of subsection (d).

(2) Merger of individual and SHOP Exchanges

A State may elect to provide only one Exchange in the State for providing both Exchange and SHOP Exchange services to both qualified individuals and qualified small employers, but only if the Exchange has adequate resources to assist such individuals and employers.

(c) Responsibilities of the Secretary

(1) In general

The Secretary shall, by regulation, establish criteria for the certification of health plans as qualified health plans. Such criteria shall require that, to be certified, a plan shall, at a minimum—

(A) meet marketing requirements, and not employ marketing practices or benefit designs that have the effect of discouraging the enrollment in such plan by individuals with significant health needs;

(B) ensure a sufficient choice of providers (in a manner consistent with applicable network adequacy provisions under section 2702(c) of the Public Health Service Act [42 U.S.C. 300gg–1(c)]), and provide information to enrollees and prospective enrollees on the availability of in-network and out-of-network providers;

(C) include within health insurance plan networks those essential community providers, where available, that serve predominately low-income, medically-underserved individuals, such as health care providers defined in section 340B(a)(4) of the Public Health Service Act [42 U.S.C. 256b(a)(4)] and providers described in section 1927(c)(1)(D)(i)(IV) of the Social Security Act [42 U.S.C. 1396r–8(c)(1)(D)(i)(IV)] as set forth by section 221 of Public Law 111–8, except that nothing in this subparagraph shall be construed to require any health plan to provide coverage for any specific medical procedure;

(D)(i) be accredited with respect to local performance on clinical quality measures such as the Healthcare Effectiveness Data and Information Set, patient experience ratings on a standardized Consumer Assessment of Healthcare Providers and Systems survey, as well as consumer access, utilization management, quality assurance, provider credentialing, complaints and appeals, network adequacy and access, and patient information programs by any entity recognized by the Secretary for the accreditation of health insurance issuers or plans (so long as any such entity has transparent and rigorous methodological and scoring criteria); or

(ii) receive such accreditation within a period established by an Exchange for such

accreditation that is applicable to all qualified health plans;

(E) implement a quality improvement strategy described in subsection (g)(1);

(F) utilize a uniform enrollment form that qualified individuals and qualified employers may use (either electronically or on paper) in enrolling in qualified health plans offered through such Exchange, and that takes into account criteria that the National Association of Insurance Commissioners develops and submits to the Secretary;

(G) utilize the standard format established for presenting health benefits plan options;

(H) provide information to enrollees and prospective enrollees, and to each Exchange in which the plan is offered, on any quality measures for health plan performance endorsed under section 399JJ of the Public Health Service Act [42 U.S.C. 280j–2], as applicable; and

(I) report to the Secretary at least annually and in such manner as the Secretary shall require, pediatric quality reporting measures consistent with the pediatric quality reporting measures established under section 1139A of the Social Security Act [42 U.S.C. 1320b–9a].

Nothing in paragraph (1)(C) shall be construed to require a qualified health plan to contract with a provider described in such paragraph if such provider refuses to accept the generally applicable payment rates of such plan.

(3) Rating system

The Secretary shall develop a rating system that would rate qualified health plans offered through an Exchange in each benefits level on the basis of the relative quality and price. The Exchange shall include the quality rating in the information provided to individuals and employers through the Internet portal established under paragraph (4).

(4) Enrollee satisfaction system

The Secretary shall develop an enrollee satisfaction survey system that would evaluate the level of enrollee satisfaction with qualified health plans offered through an Exchange, for each such qualified health plan that had more than 500 enrollees in the previous year. The Exchange shall include enrollee satisfaction information in the information provided to individuals and employers through the Internet portal established under paragraph (5) in a manner that allows individuals to easily compare enrollee satisfaction levels between comparable plans.

(5) Internet portals

The Secretary shall—

(A) continue to operate, maintain, and update the Internet portal developed under section 18003(a) of this title and to assist States in developing and maintaining their own such portal; and

(B) make available for use by Exchanges a model template for an Internet portal that may be used to direct qualified individuals and qualified employers to qualified health plans, to assist such individuals and employers in determining whether they are eligible to participate in an Exchange or eligible for a premium tax credit or cost-sharing reduction, and to present standardized information (including quality ratings) regarding qualified health plans offered through an Exchange to assist consumers in making easy health insurance choices.

Such template shall include, with respect to each qualified health plan offered through the Exchange in each rating area, access to the uniform outline of coverage the plan is required to provide under section 2716 [1] of the Public Health Service Act and to a copy of the plan's written policy.

(6) Enrollment periods

The Secretary shall require an Exchange to provide for—

(A) an initial open enrollment, as determined by the Secretary (such determination to be made not later than July 1, 2012);

the initial enrollment period;

(3) Rules relating to additional required benefits

(A) In general

Except as provided in subparagraph (B), an Exchange may make available a qualified health plan notwithstanding any provision of law that may require benefits other than the essential health benefits specified under section 18022(b) of this title.

A State shall make payments—

(I) to an individual enrolled in a qualified health plan offered in such State; or

to defray the cost of any additional benefits described in clause (i).

(G) establish and make available by electronic means a calculator to determine the actual cost of coverage after the application of any premium tax credit under section 36B of title 26 and any cost-sharing reduction under section 18071 of this title;

(H) subject to section 18081 of this title, grant a certification attesting that, for purposes of the individual responsibility penalty under section 5000A of title 26, an individual is exempt from the individual requirement or from the penalty imposed by such section because—

(ii) the individual meets the requirements for any other such exemption from the individual responsibility requirement or penalty;

(I) transfer to the Secretary of the Treasury—

(J) provide to each employer the name of each employee of the employer described in subparagraph (I)(ii) who ceases coverage under a qualified health plan during a plan year (and the effective date of such cessation); and

(K) establish the Navigator program described in subsection (i).

(5) Funding limitations

(A) No Federal funds for continued operations

In establishing an Exchange under this section, the State shall ensure that such Exchange is self-sustaining beginning on January 1, 2015, including allowing the Exchange to charge assessments or user fees to participating health insurance issuers, or to otherwise generate funding, to support its operations.

(B) Prohibiting wasteful use of funds

In carrying out activities under this subsection, an Exchange shall not utilize any funds intended for the administrative and operational expenses of the Exchange for staff retreats,

Such information shall also include monies lost to waste, fraud, and abuse.

(e) Certification

(1) In general

An Exchange may certify a health plan as a qualified health plan if—

(A) such health plan meets the requirements for certification as promulgated by the Secretary under subsection (c)(1); and

(B) the Exchange determines that making available such health plan through such Exchange is in the interests of qualified individuals and qualified employers in the State or States in which such Exchange operates, except that the Exchange may not exclude a health plan—

(i) on the basis that such plan is a fee-for-service plan;

(ii) through the imposition of premium price controls; or

(iii) on the basis that the plan provides treatments necessary to prevent patients' deaths in circumstances the Exchange determines are inappropriate or too costly.

(2) Premium considerations

The Exchange shall require health plans seeking certification as qualified health plans to submit a justification for any premium increase prior to implementation of the increase. Such plans shall prominently post such information on their websites. The Exchange shall take this information, and the information and the recommendations provided to the Exchange by the State under section 2794(b)(1) [1] of the Public Health Service Act [42 U.S.C. 300gg–94(b)(1)] (relating to patterns or practices of excessive or unjustified premium increases), into consideration when determining whether to make such health plan available through the Exchange. The term "plain language" means language that the intended audience, including individuals with limited English proficiency, can readily understand and use because that language is concise, well-organized, and follows other best practices of plain language writing. The Secretary and the Secretary of Labor shall jointly develop and issue guidance on best practices of plain language writing.

(C) Cost sharing transparency

The Exchange shall require health plans seeking certification as qualified health plans to permit individuals to learn the amount of cost-sharing (including deductibles, copayments, and coinsurance) under the individual's plan or coverage that the individual would be responsible for paying with respect to the furnishing of a specific item or service by a participating provider in a timely manner upon the request of the individual. At a minimum, such information shall be made available to such individual through an Internet website and such other means for individuals without access to the Internet.

(D) Group health plans

The Secretary of Labor shall update and harmonize the Secretary's rules concerning the accurate and timely disclosure to participants by group health plans of plan disclosure, plan terms and conditions, and periodic financial disclosure with the standards established by the Secretary under subparagraph (A).

An Exchange may operate in more than one State if—

(A) each State in which such Exchange operates permits such operation; and

(B) the Secretary approves such regional or interstate Exchange.

(2) Subsidiary Exchanges

A State may establish one or more subsidiary Exchanges if—

(A) each such Exchange serves a geographically distinct area; and

The guidelines developed under paragraph (2) shall require the periodic reporting to the applicable Exchange of the activities that a qualified health plan has conducted to implement a strategy described in paragraph (1).

(h) Quality improvement

(1) Enhancing patient safety

Beginning on January 1, 2015, a qualified health plan may contract with—

(A) a hospital with greater than 50 beds only if such hospital—

(ii) implements a mechanism to ensure that each patient receives a comprehensive program for hospital discharge that includes patient-centered education and counseling, comprehensive discharge planning, and post discharge reinforcement by an appropriate health care professional; or

(B) a health care provider only if such provider implements such mechanisms to improve health care quality as the Secretary may by regulation require.

(2) Exceptions

The Secretary may establish reasonable exceptions to the requirements described in paragraph (1).

(3) Adjustment

The Secretary may by regulation adjust the number of beds described in paragraph (1)(A).

PART D—STATE FLEXIBILITY TO ESTABLISH ALTERNATIVE PROGRAMS

§18051. State flexibility to establish basic health programs for low-income individuals not eligible for medicaid

(a) Establishment of program

(1) In general

The Secretary shall establish a basic health program meeting the requirements of this section under which a State may enter into contracts to offer 1 or more standard health plans providing at least the essential health benefits described in section 18022(b) of this title to eligible individuals in lieu of offering such individuals coverage through an Exchange.

(2) Certifications as to benefit coverage and costs

Such program shall provide that a State may not establish a basic health program under this section unless the State establishes to the satisfaction of the Secretary, and the Secretary certifies, that—

(A) in the case of an eligible individual enrolled in a standard health plan offered through the program, the State provides—

(i) that the amount of the monthly premium an eligible individual is required to pay for coverage under the standard health plan for the individual and the individual's dependents does not exceed the amount of the monthly premium that the eligible individual would have been required to pay (in the rating area in which the individual resides) if the individual had enrolled in the applicable second lowest cost silver plan (as defined in section 36B(b)(3)(B) of title 26) offered to the individual through an Exchange; and

(ii) that the cost-sharing an eligible individual is required to pay under the standard health plan does not exceed—

(I) the cost-sharing required under a platinum plan in the case of an eligible individual

with household income not in excess of 150 percent of the poverty line for the size of the family involved; and

(II) the cost-sharing required under a gold plan in the case of an eligible individual not described in subclause (I); and

(B) the benefits provided under the standard health plans offered through the program cover at least the essential health benefits described in section 18022(b) of this title.

For purposes of subparagraph (A)(i), the amount of the monthly premium an individual is required to pay under either the standard health plan or the applicable second lowest cost silver plan shall be determined after reduction for any premium tax credits and cost-sharing reductions allowable with respect to either plan.

(b) Standard health plan

In this section, the term "standard heath [1] plan" means a health benefits plan that the State contracts with under this section—

(1) under which the only individuals eligible to enroll are eligible individuals;

(2) that provides at least the essential health benefits described in section 18022(b) of this title; and

(3) in the case of a plan that provides health insurance coverage offered by a health insurance issuer, that has a medical loss ratio of at least 85 percent.

(c) Contracting process

(1) In general

A State basic health program shall establish a competitive process for entering into contracts with standard health plans under subsection (a), including negotiation of premiums and cost-sharing and negotiation of benefits in addition to the essential health benefits described in section 18022(b) of this title.

(2) Specific items to be considered

A State shall, as part of its competitive process under paragraph (1), include at least the following:

(A) Innovation

Negotiation with offerors of a standard health plan for the inclusion of innovative features in the plan, including—

(i) care coordination and care management for enrollees, especially for those with chronic health conditions;

(ii) incentives for use of preventive services; and

(iii) the establishment of relationships between providers and patients that maximize patient involvement in health care decision-making, including providing incentives for appropriate utilization under the plan.

(B) Health and resource differences

Consideration of, and the making of suitable allowances for, differences in health care needs of enrollees and differences in local availability of, and access to, health care providers. Nothing in this subparagraph shall be construed as allowing discrimination on the basis of pre-existing conditions or other health status-related factors.

(C) Managed care

Contracting with managed care systems, or with systems that offer as many of the attributes of managed care as are feasible in the local health care market.

(D) Performance measures

Establishing specific performance measures and standards for issuers of standard health plans

that focus on quality of care and improved health outcomes, requiring such plans to report to the State with respect to the measures and standards, and making the performance and quality information available to enrollees in a useful form.

(3) Enhanced availability

(A) Multiple plans

A State shall, to the maximum extent feasible, seek to make multiple standard health plans available to eligible individuals within a State to ensure individuals have a choice of such plans.

(B) Regional compacts

A State may negotiate a regional compact with other States to include coverage of eligible individuals in all such States in agreements with issuers of standard health plans.

(4) Coordination with other State programs

A State shall seek to coordinate the administration of, and provision of benefits under, its program under this section with the State medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.], the State child health plan under title XXI of such Act [42 U.S.C. 1397aa et seq.], and other State-administered health programs to maximize the efficiency of such programs and to improve the continuity of care.

(d) Transfer of funds to States

(1) In general

If the Secretary determines that a State electing the application of this section meets the requirements of the program established under subsection (a), the Secretary shall transfer to the State for each fiscal year for which 1 or more standard health plans are operating within the State the amount determined under paragraph (3).

(2) Use of funds

A State shall establish a trust for the deposit of the amounts received under paragraph (1) and amounts in the trust fund shall only be used to reduce the premiums and cost-sharing of, or to provide additional benefits for, eligible individuals enrolled in standard health plans within the State. Amounts in the trust fund, and expenditures of such amounts, shall not be included in determining the amount of any non-Federal funds for purposes of meeting any matching or expenditure requirement of any federally-funded program.

(3) Amount of payment

(A) Secretarial determination

(i) In general

The amount determined under this paragraph for any fiscal year is the amount the Secretary determines is equal to 95 percent of the premium tax credits under section 36B of title 26, and the cost-sharing reductions under section 18071 of this title, that would have been provided for the fiscal year to eligible individuals enrolled in standard health plans in the State if such eligible individuals were allowed to enroll in qualified health plans through an Exchange established under this subchapter.

(ii) Specific requirements

The Secretary shall make the determination under clause (i) on a per enrollee basis and shall take into account all relevant factors necessary to determine the value of the premium tax credits and cost-sharing reductions that would have been provided to eligible individuals described in clause (i), including the age and income of the enrollee, whether the enrollment is for self-only or family coverage, geographic differences in average spending for health care across rating areas, the health status of the enrollee for purposes of determining risk adjustment payments and reinsurance payments that would have been made if the enrollee had enrolled in a qualified health plan through an Exchange, and whether any reconciliation

of the credit or cost-sharing reductions would have occurred if the enrollee had been so enrolled. This determination shall take into consideration the experience of other States with respect to participation in an Exchange and such credits and reductions provided to residents of the other States, with a special focus on enrollees with income below 200 percent of poverty.

(iii) Certification

The Chief Actuary of the Centers for Medicare & Medicaid Services, in consultation with the Office of Tax Analysis of the Department of the Treasury, shall certify whether the methodology used to make determinations under this subparagraph, and such determinations, meet the requirements of clause (ii). Such certifications shall be based on sufficient data from the State and from comparable States about their experience with programs created by this Act.

(B) Corrections

The Secretary shall adjust the payment for any fiscal year to reflect any error in the determinations under subparagraph (A) for any preceding fiscal year.

(4) Application of special rules

The provisions of section 18023 of this title shall apply to a State basic health program, and to standard health plans offered through such program, in the same manner as such rules apply to qualified health plans.

(e) Eligible individual

(1) In general

In this section, the term "eligible individual" means, with respect to any State, an individual—

(A) who a [2] resident of the State who is not eligible to enroll in the State's medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] for benefits that at a minimum consist of the essential health benefits described in section 18022(b) of this title;

(B) whose household income exceeds 133 percent but does not exceed 200 percent of the poverty line for the size of the family involved, or, in the case of an alien lawfully present in the United States, whose income is not greater than 133 percent of the poverty line for the size of the family involved but who is not eligible for the Medicaid program under title XIX of the Social Security Act by reason of such alien status;

(C) who is not eligible for minimum essential coverage (as defined in section 5000A(f) of title 26) or is eligible for an employer-sponsored plan that is not affordable coverage (as determined under section 5000A(e)(2) of such title); and

(D) who has not attained age 65 as of the beginning of the plan year.

Such term shall not include any individual who is not a qualified individual under section 18032 of this title who is eligible to be covered by a qualified health plan offered through an Exchange.

(2) Eligible individuals may not use Exchange

An eligible individual shall not be treated as a qualified individual under section 18032 of this title eligible for enrollment in a qualified health plan offered through an Exchange established under section 18031 of this title.

(f) Secretarial oversight

The Secretary shall each year conduct a review of each State program to ensure compliance with the requirements of this section, including ensuring that the State program meets—

(1) eligibility verification requirements for participation in the program;

(2) the requirements for use of Federal funds received by the program; and

(3) the quality and performance standards under this section.

(g) Standard health plan offerors

A State may provide that persons eligible to offer standard health plans under a basic health program established under this section may include a licensed health maintenance organization, a licensed health insurance insurer, or a network of health care providers established to offer services under the program.

(h) Definitions

Any term used in this section which is also used in section 36B of title 26 shall have the meaning given such term by such section.

(1) In general

Not later than July 1, 2013, the Secretary shall, in consultation with the National Association of Insurance Commissioners, issue regulations for the creation of health care choice compacts under which 2 or more States may enter into an agreement under which—

(ii) would be required to be licensed in each State in which it offers the plan under the compact or to submit to the jurisdiction of each such State with regard to the standards described in clause (i) (including allowing access to records as if the insurer were licensed in

the State); and

(iii) must clearly notify consumers that the policy may not be subject to all the laws and regulations of the State in which the purchaser resides.

(2) State authority

§18054. Multi-State plans

(a) Oversight by the Office of Personnel Management

(1) In general

The Director of the Office of Personnel Management (referred to in this section as the "Director") shall enter into contracts with health insurance issuers (which may include a group of health insurance issuers affiliated either by common ownership and control or by the common use of a nationally licensed service mark), without regard to section 6101 of title 41 or other statutes requiring competitive bidding, to offer at least 2 multi-State qualified health plans through each Exchange in each State. Such plans shall provide individual, or in the case of small employers, group coverage.

(2) Terms

Each contract entered into under paragraph (1) shall be for a uniform term of at least 1 year, but may be made automatically renewable from term to term in the absence of notice of termination

by either party. In entering into such contracts, the Director shall ensure that health benefits coverage is provided in accordance with the types of coverage provided for under section 2701(a)(1)(A)(i) of the Public Health Service Act [42 U.S.C. 300gg(a)(1)(A)(i)].

(3) Non-profit entities

In entering into contracts under paragraph (1), the Director shall ensure that at least one contract is entered into with a non-profit entity.

(4) Administration

The Director shall implement this subsection in a manner similar to the manner in which the Director implements the contracting provisions with respect to carriers under the Federal employees health benefit program [1] under chapter 89 of title 5, including (through negotiating with each multi-state [2] plan)—

(A) a medical loss ratio;

(B) a profit margin;

(C) the premiums to be charged; and

(D) such other terms and conditions of coverage as are in the interests of enrollees in such plans.

(5) Authority to protect consumers

The Director may prohibit the offering of any multi-State health plan that does not meet the terms and conditions defined by the Director with respect to the elements described in subparagraphs (A) through (D) of paragraph (4).

(6) Assured availability of varied coverage

In entering into contracts under this subsection, the Director shall ensure that with respect to multi-State qualified health plans offered in an Exchange, there is at least one such plan that does not provide coverage of services described in section 18023(b)(1)(B)(i) of this title.

(7) Withdrawal

Approval of a contract under this subsection may be withdrawn by the Director only after notice and opportunity for hearing to the issuer concerned without regard to subchapter II of chapter 5 and chapter 7 of title 5.

(b) Eligibility

A health insurance issuer shall be eligible to enter into a contract under subsection (a)(1) if such issuer—

(1) agrees to offer a multi-State qualified health plan that meets the requirements of subsection (c) in each Exchange in each State;

(2) is licensed in each State and is subject to all requirements of State law not inconsistent with this section, including the standards and requirements that a State imposes that do not prevent the application of a requirement of part A of title XXVII of the Public Health Service Act [42 U.S.C. 300gg et seq.] or a requirement of this title; [3]

(3) otherwise complies with the minimum standards prescribed for carriers offering health benefits plans under section 8902(e) of title 5 to the extent that such standards do not conflict with a provision of this title; [3] and

(4) meets such other requirements as determined appropriate by the Director, in consultation with the Secretary.

(c) Requirements for multi-State qualified health plan

(1) In general

A multi-State qualified health plan meets the requirements of this subsection if, in the determination of the Director—

(A) the plan offers a benefits package that is uniform in each State and consists of the essential benefits described in section 18022 of this title;

(B) the plan meets all requirements of this title [3] with respect to a qualified health plan, including requirements relating to the offering of the bronze, silver, and gold levels of coverage and catastrophic coverage in each State Exchange;

(C) except as provided in paragraph (5), the issuer provides for determinations of premiums for coverage under the plan on the basis of the rating requirements of part A of title XXVII of the Public Health Service Act; and

(D) the issuer offers the plan in all geographic regions, and in all States that have adopted adjusted community rating before March 23, 2010.

(2) States may offer additional benefits

Nothing in paragraph (1)(A) shall preclude a State from requiring that benefits in addition to the essential health benefits required under such paragraph be provided to enrollees of a multi-State qualified health plan offered in such State.

(3) Credits

(A) In general

An individual enrolled in a multi-State qualified health plan under this section shall be eligible for credits under section 36B of title 26 and cost sharing assistance under section 18071 of this title in the same manner as an individual who is enrolled in a qualified health plan.

(B) No additional Federal cost

A requirement by a State under paragraph (2) that benefits in addition to the essential health benefits required under paragraph (1)(A) be provided to enrollees of a multi-State qualified health plan shall not affect the amount of a premium tax credit provided under section 36B of title 26 with respect to such plan.

(4) State must assume cost

A State shall make payments—

(A) to an individual enrolled in a multi-State qualified health plan offered in such State; or

(B) on behalf of an individual described in subparagraph (A) directly to the multi-State qualified health plan in which such individual is enrolled;

to defray the cost of any additional benefits described in paragraph (2).

(5) Application of certain State rating requirements

With respect to a multi-State qualified health plan that is offered in a State with age rating requirements that are lower than 3:1, the State may require that Exchanges operating in such State only permit the offering of such multi-State qualified health plans if such plans comply with the State's more protective age rating requirements.

(d) Plans deemed to be certified

A multi-State qualified health plan that is offered under a contract under subsection (a) shall be deemed to be certified by an Exchange for purposes of section 18031(d)(4)(A) of this title.

(e) Phase-in

Notwithstanding paragraphs (1) and (2) of subsection (b), the Director shall enter into a contract with a health insurance issuer for the offering of a multi-State qualified health plan under subsection (a) if—

(1) with respect to the first year for which the issuer offers such plan, such issuer offers the plan in at least 60 percent of the States;

(2) with respect to the second such year, such issuer offers the plan in at least 70 percent of the States;

(3) with respect to the third such year, such issuer offers the plan in at least 85 percent of the States; and

(4) with respect to each subsequent year, such issuer offers the plan in all States.

(f) Applicability

The requirements under chapter 89 of title 5 applicable to health benefits plans under such chapter shall apply to multi-State qualified health plans provided for under this section to the extent that such requirements do not conflict with a provision of this title.[3]

(g) Continued support for FEHBP

(1) Maintenance of effort

Nothing in this section shall be construed to permit the Director to allocate fewer financial or personnel resources to the functions of the Office of Personnel Management related to the administration of the Federal Employees Health Benefit Program under chapter 89 of title 5.

(2) Separate risk pool

Enrollees in multi-State qualified health plans under this section shall be treated as a separate risk pool apart from enrollees in the Federal Employees Health Benefit Program under chapter 89 of title 5.

(3) Authority to establish separate entities

The Director may establish such separate units or offices within the Office of Personnel Management as the Director determines to be appropriate to ensure that the administration of multi-State qualified health plans under this section does not interfere with the effective administration of the Federal Employees Health Benefit Program under chapter 89 of title 5.

(4) Effective oversight

The Director may appoint such additional personnel as may be necessary to enable the Director to carry out activities under this section.

(5) Assurance of separate program

In carrying out this section, the Director shall ensure that the program under this section is separate from the Federal Employees Health Benefit Program under chapter 89 of title 5. Premiums paid for coverage under a multi-State qualified health plan under this section shall not be considered to be Federal funds for any purposes.

(6) FEHBP plans not required to participate

Nothing in this section shall require that a carrier offering coverage under the Federal Employees Health Benefit Program under chapter 89 of title 5 also offer a multi-State qualified health plan under this section.

(h) Advisory board

The Director shall establish an advisory board to provide recommendations on the activities described in this section. A significant percentage of the members of such board shall be comprised of enrollees in a multi-State qualified health plan, or representatives of such enrollees.

PART E—REINSURANCE AND RISK ADJUSTMENT

§18061. Transitional reinsurance program for individual market in each State

(a) In general

Each State shall, not later than January 1, 2014—

(1) include in the Federal standards or State law or regulation the State adopts and has in effect under section 18041(b) of this title the provisions described in subsection (b); and

(2) establish (or enter into a contract with) 1 or more applicable reinsurance entities to carry out the reinsurance program under this section.

(b) Model regulation

(1) In general

In establishing the Federal standards under section 18041(a) of this title, the Secretary, in consultation with the National Association of Insurance Commissioners (the "NAIC"), shall include provisions that enable States to establish and maintain a program under which—

(A) health insurance issuers, and third party administrators on behalf of group health plans, are required to make payments to an applicable reinsurance entity for any plan year beginning in the 3-year period beginning January 1, 2014 (as specified in paragraph (3); [1] and

(B) the applicable reinsurance entity collects payments under subparagraph (A) and uses amounts so collected to make reinsurance payments to health insurance issuers described in subparagraph (A) that cover high risk individuals in the individual market (excluding grandfathered health plans) for any plan year beginning in such 3-year period.

(2) High-risk individual; payment amounts

The Secretary shall include the following in the provisions under paragraph (1):

(A) Determination of high-risk individuals

The method by which individuals will be identified as high risk individuals for purposes of the reinsurance program established under this section. Such method shall provide for identification of individuals as high-risk individuals on the basis of—

(i) a list of at least 50 but not more than 100 medical conditions that are identified as high-risk conditions and that may be based on the identification of diagnostic and procedure codes that are indicative of individuals with pre-existing, high-risk conditions; or

(ii) any other comparable objective method of identification recommended by the American Academy of Actuaries.

(B) Payment amount

The formula for determining the amount of payments that will be paid to health insurance issuers described in paragraph (1)(B) that insure high-risk individuals. Such formula shall

provide for the equitable allocation of available funds through reconciliation and may be designed—

(i) to provide a schedule of payments that specifies the amount that will be paid for each of the conditions identified under subparagraph (A); or

(ii) to use any other comparable method for determining payment amounts that is recommended by the American Academy of Actuaries and that encourages the use of care coordination and care management programs for high risk conditions.

(3) Determination of required contributions

(A) In general

The Secretary shall include in the provisions under paragraph (1) the method for determining the amount each health insurance issuer and group health plan described in paragraph (1)(A) contributing to the reinsurance program under this section is required to contribute under such paragraph for each plan year beginning in the 36-month period beginning January 1, 2014. The contribution amount for any plan year may be based on the percentage of revenue of each issuer and the total costs of providing benefits to enrollees in self-insured plans or on a specified amount per enrollee and may be required to be paid in advance or periodically throughout the plan year.

(B) Specific requirements

The method under this paragraph shall be designed so that—

(i) the contribution amount for each issuer proportionally reflects each issuer's fully insured commercial book of business for all major medical products and the total value of all fees charged by the issuer and the costs of coverage administered by the issuer as a third party administrator;

(ii) the contribution amount can include an additional amount to fund the administrative expenses of the applicable reinsurance entity;

(iii) the aggregate contribution amounts for all States shall, based on the best estimates of the NAIC and without regard to amounts described in clause (ii), equal $10,000,000,000 for plan years beginning in 2014, $6,000,000,000 for plan years beginning [2] 2015, and $4,000,000,000 for plan years beginning in 2016; and

(iv) in addition to the aggregate contribution amounts under clause (iii), each issuer's contribution amount for any calendar year under clause (iii) reflects its proportionate share of an additional $2,000,000,000 for 2014, an additional $2,000,000,000 for 2015, and an additional $1,000,000,000 for 2016.

Nothing in this subparagraph shall be construed to preclude a State from collecting additional amounts from issuers on a voluntary basis.

(4) Expenditure of funds

The provisions under paragraph (1) shall provide that—

(A) the contribution amounts collected for any calendar year may be allocated and used in any of the three calendar years for which amounts are collected based on the reinsurance needs of a particular period or to reflect experience in a prior period; and

(B) amounts remaining unexpended as of December, 2016, may be used to make payments under any reinsurance program of a State in the individual market in effect in the 2-year period beginning on January 1, 2017.

Notwithstanding the preceding sentence, any contribution amounts described in paragraph (3)(B)(iv) shall be deposited into the general fund of the Treasury of the United States and may not be used for the program established under this section.

(c) Applicable reinsurance entity

For purposes of this section—

(1) In general

The term "applicable reinsurance entity" means a not-for-profit organization—

(A) the purpose of which is to help stabilize premiums for coverage in the individual market in a State during the first 3 years of operation of an Exchange for such markets within the State when the risk of adverse selection related to new rating rules and market changes is greatest; and

(B) the duties of which shall be to carry out the reinsurance program under this section by coordinating the funding and operation of the risk-spreading mechanisms designed to implement the reinsurance program.

(2) State discretion

A State may have more than 1 applicable reinsurance entity to carry out the reinsurance program under this section within the State and 2 or more States may enter into agreements to provide for an applicable reinsurance entity to carry out such program in all such States.

(3) Entities are tax-exempt

An applicable reinsurance entity established under this section shall be exempt from taxation under chapter 1 of title 26. The preceding sentence shall not apply to the tax imposed by section 511 such [3] title (relating to tax on unrelated business taxable income of an exempt organization).

(d) Coordination with State high-risk pools

The State shall eliminate or modify any State high-risk pool to the extent necessary to carry out the reinsurance program established under this section. The State may coordinate the State high-risk pool with such program to the extent not inconsistent with the provisions of this section.

§18062. Establishment of risk corridors for plans in individual and small group markets

(a) In general

The Secretary shall establish and administer a program of risk corridors for calendar years 2014, 2015, and 2016 under which a qualified health plan offered in the individual or small group market shall participate in a payment adjustment system based on the ratio of the allowable costs of the plan to the plan's aggregate premiums. Such program shall be based on the program for regional participating provider organizations under part D of title XVIII of the Social Security Act [42 U.S.C. 1395w–101 et seq.].

(b) Payment methodology

(1) Payments out

The Secretary shall provide under the program established under subsection (a) that if—

(A) a participating plan's allowable costs for any plan year are more than 103 percent but not more than 108 percent of the target amount, the Secretary shall pay to the plan an amount equal to 50 percent of the target amount in excess of 103 percent of the target amount; and

(B) a participating plan's allowable costs for any plan year are more than 108 percent of the target amount, the Secretary shall pay to the plan an amount equal to the sum of 2.5 percent of the target amount plus 80 percent of allowable costs in excess of 108 percent of the target amount.

(2) Payments in

The Secretary shall provide under the program established under subsection (a) that if—

(A) a participating plan's allowable costs for any plan year are less than 97 percent but not less than 92 percent of the target amount, the plan shall pay to the Secretary an amount equal to 50 percent of the excess of 97 percent of the target amount over the allowable costs; and

(B) a participating plan's allowable costs for any plan year are less than 92 percent of the target amount, the plan shall pay to the Secretary an amount equal to the sum of 2.5 percent of the target amount plus 80 percent of the excess of 92 percent of the target amount over the allowable costs.

§18063. Risk adjustment

(a) In general

(1) Low actuarial risk plans

Using the criteria and methods developed under subsection (b), each State shall assess a charge on health plans and health insurance issuers (with respect to health insurance coverage) described in subsection (c) if the actuarial risk of the enrollees of such plans or coverage for a year is less

than the average actuarial risk of all enrollees in all plans or coverage in such State for such year that are not self-insured group health plans (which are subject to the provisions of the Employee Retirement Income Security Act of 1974 [29 U.S.C. 1001 et seq.]).

(2) High actuarial risk plans

Using the criteria and methods developed under subsection (b), each State shall provide a payment to health plans and health insurance issuers (with respect to health insurance coverage) described in subsection (c) if the actuarial risk of the enrollees of such plans or coverage for a year is greater than the average actuarial risk of all enrollees in all plans and coverage in such State for such year that are not self-insured group health plans (which are subject to the provisions of the Employee Retirement Income Security Act of 1974).

(b) Criteria and methods

The Secretary, in consultation with States, shall establish criteria and methods to be used in carrying out the risk adjustment activities under this section. SUBCHAPTER IV—AFFORDABLE COVERAGE CHOICES FOR ALL AMERICANS

PART A—PREMIUM TAX CREDITS AND COST-SHARING REDUCTIONS

§18071. Reduced cost-sharing for individuals enrolling in qualified health plans

(a) In general

In the case of an eligible insured enrolled in a qualified health plan—

(1) the Secretary shall notify the issuer of the plan of such eligibility; and

(2) the issuer shall reduce the cost-sharing under the plan at the level and in the manner specified in subsection (c).

(b) Eligible insured

In this section, the term "eligible insured" means an individual—

(1) who enrolls in a qualified health plan in the silver level of coverage in the individual market offered through an Exchange; and

(2) whose household income exceeds 100 percent but does not exceed 400 percent of the poverty line for a family of the size involved.

In the case of an individual described in section 36B(c)(1)(B) of title 26, the individual shall be treated as having household income equal to 100 percent for purposes of applying this section.

(c) Determination of reduction in cost-sharing

(1) Reduction in out-of-pocket limit

(A) In general

The reduction in cost-sharing under this subsection shall first be achieved by reducing the applicable out-of pocket [1] limit under section 18022(c)(1) of this title in the case of—

(i) an eligible insured whose household income is more than 100 percent but not more than 200 percent of the poverty line for a family of the size involved, by two-thirds;

(ii) an eligible insured whose household income is more than 200 percent but not more than 300 percent of the poverty line for a family of the size involved, by one-half; and

(iii) an eligible insured whose household income is more than 300 percent but not more than 400 percent of the poverty line for a family of the size involved, by one-third.

(B) Coordination with actuarial value limits

(i) In general

The Secretary shall ensure the reduction under this paragraph shall not result in an increase in the plan's share of the total allowed costs of benefits provided under the plan above—

(I) 94 percent in the case of an eligible insured described in paragraph (2)(A);

(II) 87 percent in the case of an eligible insured described in paragraph (2)(B);

(III) 73 percent in the case of an eligible insured whose household income is more than 200 percent but not more than 250 percent of the poverty line for a family of the size involved; and

(IV) 70 percent in the case of an eligible insured whose household income is more than 250 percent but not more than 400 percent of the poverty line for a family of the size involved.

(ii) Adjustment

The Secretary shall adjust the out-of pocket [1] limits under paragraph (1) if necessary to ensure that such limits do not cause the respective actuarial values to exceed the levels specified in clause (i).

(2) Additional reduction for lower income insureds

The Secretary shall establish procedures under which the issuer of a qualified health plan to which this section applies shall further reduce cost-sharing under the plan in a manner sufficient to—

(A) in the case of an eligible insured whose household income is not less than 100 percent but not more than 150 percent of the poverty line for a family of the size involved, increase the plan's share of the total allowed costs of benefits provided under the plan to 94 percent of such costs;

(B) in the case of an eligible insured whose household income is more than 150 percent but not more than 200 percent of the poverty line for a family of the size involved, increase the plan's share of the total allowed costs of benefits provided under the plan to 87 percent of such costs; and

(C) in the case of an eligible insured whose household income is more than 200 percent but not more than 250 percent of the poverty line for a family of the size involved, increase the

plan's share of the total allowed costs of benefits provided under the plan to 73 percent of such costs.

(3) Methods for reducing cost-sharing

(A) In general

An issuer of a qualified health plan making reductions under this subsection shall notify the Secretary of such reductions and the Secretary shall make periodic and timely payments to the issuer equal to the value of the reductions.

(B) Capitated payments

The Secretary may establish a capitated payment system to carry out the payment of cost-sharing reductions under this section. Any such system shall take into account the value of the reductions and make appropriate risk adjustments to such payments.

(4) Additional benefits

If a qualified health plan under section 18022(b)(5) of this title offers benefits in addition to the essential health benefits required to be provided by the plan, or a State requires a qualified health plan under section 18031(d)(3)(B) of this title to cover benefits in addition to the essential health benefits required to be provided by the plan, the reductions in cost-sharing under this section shall not apply to such additional benefits.

(5) Special rule for pediatric dental plans

If an individual enrolls in both a qualified health plan and a plan described in section 18031(d)(2)(B)(ii)(I) [2] of this title for any plan year, subsection (a) shall not apply to that portion of any reduction in cost-sharing under subsection (c) that (under regulations prescribed by the Secretary) is properly allocable to pediatric dental benefits which are included in the essential health benefits required to be provided by a qualified health plan under section 18022(b)(1)(J) of this title.

(d) Special rules for Indians

(1) Indians under 300 percent of poverty

§18083. Streamlining of procedures for enrollment through an Exchange and State medicaid, CHIP, and health subsidy programs

(a) In general

The Secretary shall establish a system meeting the requirements of this section under which residents of each State may apply for enrollment in, receive a determination of eligibility for participation in, and continue participation in, applicable State health subsidy programs. Such system shall ensure that if an individual applying to an Exchange is found through screening to be eligible for medical assistance under the State medicaid plan under title XIX [1] [42 U.S.C. 1396 et seq.], or eligible for enrollment under a State children's health insurance program (CHIP) under title XXI of such Act [42 U.S.C. 1397aa et seq.], the individual is enrolled for assistance under such plan or program.

(b) Requirements relating to forms and notice

(1) Requirements relating to forms

(A) In general

The Secretary shall develop and provide to each State a single, streamlined form that—

(i) may be used to apply for all applicable State health subsidy programs within the State;

(ii) may be filed online, in person, by mail, or by telephone;

(iii) may be filed with an Exchange or with State officials operating one of the other applicable State health subsidy programs; and

(iv) is structured to maximize an applicant's ability to complete the form satisfactorily, taking into account the characteristics of individuals who qualify for applicable State health subsidy programs.

(B) State authority to establish form

A State may develop and use its own single, streamlined form as an alternative to the form

developed under subparagraph (A) if the alternative form is consistent with standards promulgated by the Secretary under this section.

(C) Supplemental eligibility forms

The Secretary may allow a State to use a supplemental or alternative form in the case of individuals who apply for eligibility that is not determined on the basis of the household income (as defined in section 36B of title 26).

(2) Notice

The Secretary shall provide that an applicant filing a form under paragraph (1) shall receive notice of eligibility for an applicable State health subsidy program without any need to provide additional information or paperwork unless such information or paperwork is specifically required by law when information provided on the form is inconsistent with data used for the electronic verification under paragraph (3) or is otherwise insufficient to determine eligibility.

(c) Requirements relating to eligibility based on data exchanges

(1) Development of secure interfaces

Each State shall develop for all applicable State health subsidy programs a secure, electronic interface allowing an exchange of data (including information contained in the application forms described in subsection (b)) that allows a determination of eligibility for all such programs based on a single application. Such interface shall be compatible with the method established for data verification under section 18081(c)(4) of this title.

(2) Data matching program

Each applicable State health subsidy program shall participate in a data matching arrangement for determining eligibility for participation in the program under paragraph (3) that—

(A) provides access to data described in paragraph (3);

(B) applies only to individuals who—

(i) receive assistance from an applicable State health subsidy program; or

(ii) apply for such assistance—

(I) by filing a form described in subsection (b); or

(II) by requesting a determination of eligibility and authorizing disclosure of the information described in paragraph (3) to applicable State health coverage subsidy programs for purposes of determining and establishing eligibility; and

(C) consistent [2] with standards promulgated by the Secretary, including the privacy and data security safeguards described in section 1942 of the Social Security Act [42 U.S.C. 1396w–2] or that are otherwise applicable to such programs.

(3) Determination of eligibility

(A) In general

Each applicable State health subsidy program shall, to the maximum extent practicable—

(i) establish, verify, and update eligibility for participation in the program using the data matching arrangement under paragraph (2); and

(ii) determine such eligibility on the basis of reliable, third party data, including information described in sections 1137, 453(i), and 1942(a) of the Social Security Act [42 U.S.C. 1320b–7, 653(i), 1396w–2(a)], obtained through such arrangement.

(B) Exception

This paragraph shall not apply in circumstances with respect to which the Secretary determines that the administrative and other costs of use of the data matching arrangement under paragraph (2) outweigh its expected gains in accuracy, efficiency, and program participation.

(4) Secretarial standards

The Secretary shall, after consultation with persons in possession of the data to be matched and representatives of applicable State health subsidy programs, promulgate standards governing the timing, contents, and procedures for data matching described in this subsection. Such standards shall take into account administrative and other costs and the value of data matching to the establishment, verification, and updating of eligibility for applicable State health subsidy programs.

(d) Administrative authority

(1) Agreements

Subject to section 18081 of this title and section 6103(l)(21) of title 26 and any other requirement providing safeguards of privacy and data integrity, the Secretary may establish model agreements, and enter into agreements, for the sharing of data under this section.

(2) Authority of exchange to contract out

Nothing in this section shall be construed to—

(A) prohibit contractual arrangements through which a State medicaid agency determines eligibility for all applicable State health subsidy programs, but only if such agency complies with the Secretary's requirements ensuring reduced administrative costs, eligibility errors, and disruptions in coverage; or

(B) change any requirement under title XIX [1] that eligibility for participation in a State's medicaid program must be determined by a public agency.

(e) Applicable State health subsidy program

In this section, the term "applicable State health subsidy program" means—

(1) the program under this title [3] for the enrollment in qualified health plans offered through an Exchange, including the premium tax credits under section 36B of title 26 and cost-sharing reductions under section 18071 of this title;

(2) a State medicaid program under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.];

(3) a State children's health insurance program (CHIP) under title XXI of such Act [42 U.S.C. 1397aa et seq.]; and

(4) a State program under section 18051 of this title establishing qualified basic health plans.

SUBCHAPTER V—SHARED RESPONSIBILITY FOR HEALTH CARE

PART A—INDIVIDUAL RESPONSIBILITY

§18091. Requirement to maintain minimum essential coverage; findings

Congress makes the following findings:

(1) In general

The individual responsibility requirement provided for in this section (in this section referred to as the "requirement") is commercial and economic in nature, and substantially affects interstate commerce, as a result of the effects described in paragraph (2).

(2) Effects on the national economy and interstate commerce

The effects described in this paragraph are the following:

(A) The requirement regulates activity that is commercial and economic in nature: economic and financial decisions about how and when health care is paid for, and when health insurance is purchased. In the absence of the requirement, some individuals would make an economic and financial decision to forego health insurance coverage and attempt to self-insure, which increases financial risks to households and medical providers.

(B) Health insurance and health care services are a significant part of the national economy. National health spending is projected to increase from $2,500,000,000,000, or 17.6 percent of the economy, in 2009 to $4,700,000,000,000 in 2019. Private health insurance spending is projected to be $854,000,000,000 in 2009, and pays for medical supplies, drugs, and equipment that are shipped in interstate commerce. Since most health insurance is sold by national or regional health insurance companies, health insurance is sold in interstate commerce and claims payments flow through interstate commerce.

(C) The requirement, together with the other provisions of this Act, will add millions of new consumers to the health insurance market, increasing the supply of, and demand for, health care services, and will increase the number and share of Americans who are insured.

(D) The requirement achieves near-universal coverage by building upon and strengthening the private employer-based health insurance system, which covers 176,000,000 Americans

nationwide. In Massachusetts, a similar requirement has strengthened private employer-based coverage: despite the economic downturn, the number of workers offered employer-based coverage has actually increased.

(E) The economy loses up to $207,000,000,000 a year because of the poorer health and shorter lifespan of the uninsured. By significantly reducing the number of the uninsured, the requirement, together with the other provisions of this Act, will significantly reduce this economic cost.

(F) The cost of providing uncompensated care to the uninsured was $43,000,000,000 in 2008. To pay for this cost, health care providers pass on the cost to private insurers, which pass on the cost to families. This cost-shifting increases family premiums by on average over $1,000 a year. By significantly reducing the number of the uninsured, the requirement, together with the other provisions of this Act, will lower health insurance premiums.

(G) 62 percent of all personal bankruptcies are caused in part by medical expenses. By significantly increasing health insurance coverage, the requirement, together with the other provisions of this Act, will improve financial security for families.

(H) Under the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1001 et seq.), the Public Health Service Act (42 U.S.C. 201 et seq.), and this Act, the Federal Government has a significant role in regulating health insurance. The requirement is an essential part of this larger regulation of economic activity, and the absence of the requirement would undercut Federal regulation of the health insurance market.

(I) Under sections 2704 and 2705 of the Public Health Service Act [42 U.S.C. 300gg–3, 300gg–4] (as added by section 1201 of this Act), if there were no requirement, many individuals would wait to purchase health insurance until they needed care. By significantly increasing health insurance coverage, the requirement, together with the other provisions of this Act, will minimize this adverse selection and broaden the health insurance risk pool to include healthy individuals, which will lower health insurance premiums. The requirement is essential to creating effective health insurance markets in which improved health insurance products that are guaranteed issue and do not exclude coverage of pre-existing conditions can be sold.

(J) Administrative costs for private health insurance, which were $90,000,000,000 in 2006, are 26 to 30 percent of premiums in the current individual and small group markets. By significantly increasing health insurance coverage and the size of purchasing pools, which will increase economies of scale, the requirement, together with the other provisions of this Act, will significantly reduce administrative costs and lower health insurance premiums. The requirement is essential to creating effective health insurance markets that do not require underwriting and eliminate its associated administrative costs.

(3) Supreme Court ruling

In United States v. South-Eastern Underwriters Association (322 U.S. 533 (1944)), the Supreme Court of the United States ruled that insurance is interstate commerce subject to Federal regulation.

CHAPTER 159—SPACE EXPLORATION, TECHNOLOGY, AND SCIENCE

§18301. Findings

Congress makes the following findings:

(1) The United States human space flight program has, since the first Mercury flight on May 5, 1961, been a source of pride and inspiration for the Nation.

(2) The establishment of and commitment to human exploration goals is essential for providing the necessary long term focus and programmatic consistency and robustness of the United States civilian space program.

(3) The National Aeronautics and Space Administration is and should remain a multi-mission agency with a balanced and robust set of core missions in science, aeronautics, and human space flight and exploration.

(4) In the 50 years since the establishment of NASA, the arena of space has evolved substantially. As the uses and users of space continue to expand, the issues and operations in the regions closest to Earth have become increasingly complex, with a growing number of overlaps between civil, commercial and national security activities. These developments present opportunities and challenges to the space activities of NASA and the United States.

(5) The extraordinary challenges of achieving access to space both motivated and accelerated the development of technologies and industrial capabilities that have had widespread applications which have contributed to the technological excellence of the United States. It is essential to tie space activity to human challenges ranging from enhancing the influence, relationships, security, economic development, and commerce of the United States to improving the overall human condition.

(6) It is essential to the economic well-being of the United States that the aerospace industrial capacity, highly skilled workforce, and embedded expertise remain engaged in demanding, challenging, and exciting efforts that ensure United States leadership in space exploration and related activities.

(7) Crewmembers provide the essential component to ensure the return on investment from and the growth and safe operation of the ISS. The Russian Soyuz vehicle has allowed continued human presence on the ISS for United States crewmembers with its ability to serve as both a routine and backup capability for crew delivery, rescue, and return. With the impending retirement of the Space Shuttle, the United States will find itself with no national crew delivery and return system. Without any other system, the United States and all the ISS partners will have no redundant system for human access to and from the ISS. It is therefore essential that a United States capability be developed as soon as possible.

(8) Existing and emerging United States commercial launch capabilities and emerging launch capabilities offer the potential for providing crew support assets. New capabilities for human crew

access to the ISS should be developed in a manner that ensures ISS mission assurance and safety. Commercial services offer the potential to broaden the availability and access to space at lower costs.

(9) While commercial transportation systems have the promise to contribute valuable services, it is in the United States national interest to maintain a government operated space transportation system for crew and cargo delivery to space.

(10) Congress restates its commitment, expressed in the National Aeronautics and Space Administration Authorization Act of 2005 [1] (Public Law 109–155) and the National Aeronautics and Space Administration Authorization Act of 2008 [1] (Public Law 110–422), to the development of commercially developed launch and delivery systems to the ISS for crew and cargo missions. Congress reaffirms that NASA shall make use of United States commercially provided ISS crew transfer and crew rescue services to the maximum extent practicable.

(11) It is critical to identify an appropriate combination of NASA and related United States Government programs, while providing a framework that allows partnering, leveraging and stimulation of the existing and emerging commercial and international efforts in both near Earth space and the regions beyond.

(12) The designation of the United States segment of the ISS as a National Laboratory, as provided by the National Aeronautics and Space Administration Authorization Act of 2005 [1] and the National Aeronautics and Space Administration Authorization Act of 2008,[1] provides an opportunity for multiple United States Government agencies, university-based researchers, research organizations, and others to utilize the unique environment of microgravity for fundamental scientific research and potential economic development.

(13) For some potential replacement elements necessary for ISS sustainability, the Space Shuttle may represent the only vehicle, existing or planned, capable of carrying those elements to the ISS in the near term. Additional or alternative transportation capabilities must be identified as contingency delivery options, and accompanied by an independent analysis of projected availability of such capabilities.

(14) The United States must develop, as rapidly as possible, replacement vehicles capable of providing both human and cargo launch capability to low-Earth orbit and to destinations beyond low-Earth orbit.

(15) There is a need for national space and export control policies that protect the national security of the United States while also enabling the United States and its aerospace industry to undertake cooperative programs in science and human space flight in an effective and efficient manner and to compete effectively in the global market place.

SUBCHAPTER II—EXPANSION OF HUMAN SPACE FLIGHT BEYOND THE INTERNATIONAL SPACE STATION AND LOW-EARTH ORBIT

§18321. Human space flight beyond low-Earth orbit

(a) Findings

Congress makes the following findings:

(1) The extension of the human presence from low-Earth orbit to other regions of space beyond low-Earth orbit will enable missions to the surface of the Moon and missions to deep space

destinations such as near-Earth asteroids and Mars.

(2) The regions of cis-lunar space are accessible to other national and commercial launch capabilities, and such access raises a host of national security concerns and economic implications that international human space endeavors can help to address.

(3) The ability to support human missions in regions beyond low-Earth orbit and on the surface of the Moon can also drive developments in emerging areas of space infrastructure and technology.

(4) Developments in space infrastructure and technology can stimulate and enable increased space applications, such as in-space servicing, propellant resupply and transfer, and in situ resource utilization, and open opportunities for additional users of space, whether national, commercial, or international.

(5) A long term objective for human exploration of space should be the eventual international exploration of Mars.

(6) Future international missions beyond low-Earth orbit should be designed to incorporate capability development and availability, affordability, and international contributions.

(7) Human space flight and future exploration beyond low-Earth orbit should be based around a pay-as-you-go approach. Requirements in new launch and crew systems authorized in this chapter should be scaled to the minimum necessary to meet the core national mission capability needed to conduct cis-lunar missions. These initial missions, along with the development of new technologies and in-space capabilities can form the foundation for missions to other destinations. These initial missions also should provide operational experience prior to the further human expansion into space.

(b) Report on international collaboration

(1) Report required

Not later than 120 days after October 11, 2010, the Administrator shall submit to the appropriate committees of Congress a report on the following assets and capabilities:

(A) Any effort by NASA to expand and ensure effective international collaboration on the ISS.

(B) The efforts of NASA, including its approach and progress, in defining near-term, cis-lunar space human missions.

(2) NASA contributions

In preparing the report required by paragraph (1), the Administrator shall assume that NASA will contribute to the efforts described in that paragraph the following:

(A) A Space Launch System.

(B) A multi-purpose crew vehicle.

(C) Such other technology elements the Administrator may consider appropriate, and which the Administrator shall specifically identify in the report.

(Pub. L. 111–267, title III, §301, Oct. 11, 2010, 124 Stat. 2813.)

Congress makes the following findings:

(1) The Space Shuttle program represents a national asset consisting of critical skills and capabilities, including the ability to lift large payloads into space and return them to Earth.

(2) The Space Shuttle has carried more than 355 people from 16 nations into space.

(3) The Space Shuttle has projected the best of American values around the world, and Space Shuttle crews have sparked the imagination and dreams of the world's youth and young at heart.

(b) Sense of Congress

It is the sense of Congress that—

(1) it is essential that the retirement of the Space Shuttle and the transition to new human space flight capabilities be done in a manner that builds upon the legacy of this national asset; and

(2) it is imperative for the United States to retain the skills and the industrial capability to provide a follow-on Space Launch System that is primarily designed for missions beyond near-Earth space, while offering some potential for supplanting shuttle delivery capabilities to low-Earth orbit, particularly in support of ISS requirements, if necessary.

Upon the termination of the Space Shuttle program as provided in section 18362 of this title, the Administrator shall decommission any remaining Space Shuttle orbiter vehicles according to established safety and historic preservation procedures prior to their designation as surplus government property. The orbiter vehicles shall be made available and located for display and maintenance through a competitive procedure established pursuant to the disposition plan developed under section 613(a) of the National Aeronautics and Space Administration Authorization Act of 2008 (42 U.S.C. 17761(a)),[1] with priority consideration given to eligible applicants meeting all conditions of that plan which would provide for the display and maintenance of orbiters at locations with the best potential value to the public, including where the location of the orbiters can advance educational opportunities in science, technology, engineering, and mathematics disciplines, and with an historical relationship with either the launch, flight operations, or processing of the Space Shuttle orbiters or the retrieval of NASA manned space vehicles, or significant contributions to human space flight. The Smithsonian Institution, which, as of October 11, 2001, houses the Space Shuttle Enterprise, shall determine any new location for the Enterprise.

(b) Display and maintenance

The orbiter vehicles made available under subsection (a) shall be displayed and maintained through agreements and procedures established pursuant to section 613(a) of the National Aeronautics and Space Administration Authorization Act of 2008 (42 U.S.C. 17761(a)).[1]

(c) Authorization of appropriations

There are authorized to be appropriated to NASA such sums as may be necessary to carry out this section. The amounts authorized to be appropriated by this subsection shall be in addition to any amounts authorized to be appropriated by title I, and may be requested by the President as supplemental requirements, if needed, in the appropriate fiscal years.

SUBCHAPTER VI—EARTH SCIENCE

§18371. Interagency collaboration implementation approach

The Director of OSTP shall establish a mechanism to ensure greater coordination of the research, operations, and activities relating to civilian Earth observation of those Agencies, including NASA, that have active programs that either contribute directly or indirectly to these areas. This mechanism should include the development of a strategic implementation plan that is updated at least every 3 years, and includes a process for external independent advisory input. This plan should include a description of the responsibilities of the various Agency roles in Earth observations, recommended cost-sharing and procurement arrangements between Agencies and other entities, including international arrangements, and a plan for ensuring the provision of sustained, long term space-based

climate observations. The Director shall provide a report to Congress within 90 days after October 11, 2010, on the implementation plan for this mechanism.

(Pub. L. 111–267, title VII, §702, Oct. 11, 2010, 124 Stat. 2830.)

§18372. Transitioning experimental research to operations

The Administrator shall coordinate with the Administrator of NOAA and the Director of the United States Geological Survey to establish a formal mechanism that plans, coordinates, and supports the transitioning of NASA research findings, assets, and capabilities to NOAA operations and United States Geological Survey operations. In defining this mechanism, NASA should consider the establishment of a formal or informal Interagency Transition Office. The Administrator of NASA shall provide an implementation plan for this mechanism to Congress within 90 days after October 11, 2010.

(Pub. L. 111–267, title VII, §703, Oct. 11, 2010, 124 Stat. 2830.)

§18374. Instrument test-beds and venture class missions

The Administrator shall pursue innovative ways to fly instrument-level payloads for early demonstration or as co-manifested payloads. The Congress encourages the use of the ISS as an accessible platform for the conduct of such activities. Additionally, in order to address the cost and schedule challenges associated with large flight systems, NASA should pursue smaller systems where practicable and warranted.

(Pub. L. 111–267, title VII, §706, Oct. 11, 2010, 124 Stat. 2831.)

SUBCHAPTER VII—SPACE SCIENCE

(Pub. L. 111–267, title VIII, §801, Oct. 11, 2010, 124 Stat. 2832.)

REFERENCES IN TEXT

Section 905 of this Act, referred to in text, is Pub. L. 111–267, title IX, §905, Oct. 11, 2010, 124 Stat. 2836, which is not classified to the Code.

§18382. Suborbital research activities

(a) In general

The report of the National Academy of Sciences, Revitalizing NASA's Suborbital Program: Advancing Science, Driving Innovation and Developing Workforce, found that suborbital science missions were absolutely critical to building an aerospace workforce capable of meeting the needs of current and future human and robotic space exploration.

(b) Management

The Administrator shall designate an officer or employee of the Science Mission Directorate to act as the responsible official for all Suborbital Research in the Science Mission Directorate. The designee shall be responsible for the development of short- and long term strategic plans for maintaining, renewing and extending suborbital facilities and capabilities, monitoring progress towards goals in the plans, and be responsible for integration of suborbital activities and workforce development within the agency, thereby ensuring the long term recognition of their combined value to the directorate, to NASA, and to the Nation.

(c) Establishment of Suborbital Research Program

The Administrator shall establish a Suborbital Research Program within the Science Mission Directorate that shall include the use of sounding rockets, aircraft, high altitude balloons, suborbital reusable launch vehicles, and commercial launch vehicles to advance science and train the next generation of scientists and engineers in systems engineering and systems integration which are vital to maintaining critical skills in the aerospace workforce. The program shall integrate existing suborbital research programs with orbital missions at the discretion of the designated officer or employee and shall emphasize the participation of undergraduate and graduate students and post-doctoral researchers when formulating announcements of opportunity.

(d) Report

The Administrator shall report to the appropriate committees of Congress on the number and type of suborbital missions conducted in each fiscal year and the number of undergraduate and graduate students participating in the missions. The report shall be made annually for each fiscal year under this section.

(e) Authorization

There are authorized to be appropriated to the Administrator such sums as may be necessary to carry out this section.

(Pub. L. 111–267, title VIII, §802, Oct. 11, 2010, 124 Stat. 2832.)

§18383. In-space servicing

The Administrator shall continue to take all necessary steps to ensure that provisions are made for in-space or human servicing and repair of all future observatory-class scientific spacecraft intended to be deployed in Earth-orbit or at a Lagrangian point to the extent practicable and appropriate. The Administrator should ensure that agency investments and future capabilities for space technology, robotics, and human space flight take the ability to service and repair these spacecraft into account, where appropriate, and incorporate such capabilities into design and operational plans.

(Pub. L. 111–267, title VIII, §804, Oct. 11, 2010, 124 Stat. 2833.)

§18384. Decadal results

NASA shall take into account the current decadal surveys from the National Academies' Space Studies Board when submitting the President's budget request to the Congress.

(Pub. L. 111–267, title VIII, §805, Oct. 11, 2010, 124 Stat. 2833.)

§18385. On-going restoration of radioisotope thermoelectric generator material

production

(a) Findings

The Congress finds the following:

(1) The United States has led the world in the scientific exploration of space for nearly 50 years.

(2) Missions such as Viking, Voyager, Cassini, and New Horizons have greatly expanded knowledge of our solar system and planetary characteristics and evolution.

(3) Radioisotope power systems are the only available power sources for deep space missions making it possible to travel to such distant destinations as Mars, Jupiter, Saturn, Pluto, and beyond and maintain operational control and systems viability for extended mission durations.

(4) Current radioisotope power systems supplies and production will not fully support NASA missions planned even in the next decade and, without a new domestic production capability, the United States will no longer have the means to explore the majority of the solar system by the end of this decade.

(5) Continuing to rely on Russia or other foreign sources for radioisotope power system fuel production is not a secure option.

(6) Reestablishing domestic production will require a long lead-time. Thus, meeting future space exploration mission needs requires that a restart project begin at the earliest opportunity.

(b) In general

The Administrator shall, in coordination with the Secretary of Energy, pursue a joint approach beginning in fiscal year 2011 towards restarting and sustaining the domestic production of radioisotope thermoelectric generator material for deep space and other science and exploration missions. Funds authorized by this chapter for NASA shall be made available under a reimbursable agreement with the Department of Energy for the purpose of reestablishing facilities to produce fuel required for radioisotope thermoelectric generators to enable future missions.

(c) Report

Within 120 days after October 11, 2010, the Administrator and the Secretary of Energy shall submit a joint report to the appropriate committees of Congress on coordinated agreements, planned implementation, and anticipated schedule, production quantities, and mission applications under this section.

(Pub. L. 111–267, title VIII, §806, Oct. 11, 2010, 124 Stat. 2833.)

§18386. Collaboration with ESMD and SOMD on robotic missions

The Administrator shall ensure that the Exploration Systems Mission Directorate and the Space Operations Mission Directorate coordinate with the Science Mission Directorate on an overall approach and plan for interagency and international collaboration on robotic missions that are NASA or internationally developed, including lunar, Lagrangian, near-Earth orbit, and Mars spacecraft, such as the International Lunar Network. Within 90 days after October 11, 2010, the Administrator shall provide a plan to the appropriate committees of Congress for implementation of the collaborative approach required by this section. The Administrator may not cancel or initiate any Exploration Systems Mission Directorate or Science Mission Directorate robotic project before the plan is submitted to the appropriate committees of Congress.

(Pub. L. 111–267, title VIII, §807, Oct. 11, 2010, 124 Stat. 2834.)

§18387. Near-Earth object survey and policy with respect to threats posed

(a) Policy reaffirmation

Congress reaffirms the policy set forth in section 20102(g) of title 51 relating to surveying near-Earth asteroids and comets.

(b) Implementation

The Director of the OSTP shall implement, before September 30, 2012, a policy for notifying Federal agencies and relevant emergency response institutions of an impending near-Earth object threat if near-term public safety is at risk, and assign a Federal agency or agencies to be responsible for protecting the United States and working with the international community on such threats.

(Pub. L. 111–267, title VIII, §808, Oct. 11, 2010, 124 Stat. 2834.)

CODIFICATION

In subsec. (a), "section 20102(g) of title 51" substituted for "section 102(g) of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2451(g))" on authority of Pub. L. 111–314, §5(e), Dec. 18, 2010, 124 Stat. 3443, which Act enacted Title 51, National and Commercial Space Programs.

§18388. Space weather

(a) Findings

The Congress finds the following:

(1) Space weather events pose a significant threat to modern technological systems.

(2) The effects of severe space weather events on the electric power grid, telecommunications and entertainment satellites, airline communications during polar routes, and space-based position, navigation and timing systems could have significant societal, economic, national security, and health impacts.

(3) Earth and Space Observing satellites, such as the Advanced Composition Explorer, Geostationary Operational Environmental Satellites, Polar Operational Environmental Satellites, and Defense Meteorological Satellites, provide crucial data necessary to predict space weather events.

(b) Action required

The Director of OSTP shall—

(1) improve the Nation's ability to prepare, avoid, mitigate, respond to, and recover from potentially devastating impacts of space weather events;

(2) coordinate the operational activities of the National Space Weather Program Council members, including the NOAA Space Weather Prediction Center and the U.S. Air Force Weather Agency; and

(3) submit a report to the appropriate committees of Congress within 180 days after October 11, 2010, that—

(A) details the current data sources, both space- and ground-based, that are necessary for space weather forecasting; and

EX. ORD. NO. 13744. COORDINATING EFFORTS TO PREPARE THE NATION FOR SPACE WEATHER EVENTS

Ex. Ord. No. 13744, Oct. 13, 2016, 81 F.R. 71573, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and to prepare the Nation for space weather events, it is hereby ordered as follows:

SECTION 1. *Policy*. Space weather events, in the form of solar flares, solar energetic particles, and geomagnetic disturbances, occur regularly, some with measurable effects on critical infrastructure systems and technologies, such as the Global Positioning System (GPS), satellite operations and communication, aviation, and the electrical power grid. Extreme space weather events—those that could significantly degrade critical infrastructure—could disable large portions of the electrical power grid, resulting in cascading failures that would affect key services such as water supply, healthcare, and transportation. Space weather has the potential

to simultaneously affect and disrupt health and safety across entire continents. Successfully preparing for space weather events is an all-of-nation endeavor that requires partnerships across governments, emergency managers, academia, the media, the insurance industry, non-profits, and the private sector.

It is the policy of the United States to prepare for space weather events to minimize the extent of economic loss and human hardship. The Federal Government must have (1) the capability to predict and detect a space weather event, (2) the plans and programs necessary to alert the public and private sectors to enable mitigating actions for an impending space weather event, (3) the protection and mitigation plans, protocols, and standards required to reduce risks to critical infrastructure prior to and during a credible threat, and (4) the ability to respond to and recover from the effects of space weather. Executive departments and agencies (agencies) must coordinate their efforts to prepare for the effects of space weather events.

SEC. 2. *Objectives*. This order defines agency roles and responsibilities and directs agencies to take specific actions to prepare the Nation for the hazardous effects of space weather. These activities are to be implemented in conjunction with those identified in the 2015 National Space Weather Action Plan (Action Plan) and any subsequent updates. Implementing this order and the Action Plan will require the Federal Government to work across agencies and to develop, as appropriate, enhanced and innovative partnerships with State, tribal, and local governments; academia; non-profits; the private sector; and international partners. These efforts will enhance national preparedness and speed the creation of a space-weather-ready Nation.

SEC. 3. *Coordination*. (a) The Director of the Office of Science and Technology Policy (OSTP), in consultation with the Assistant to the President for Homeland Security and Counterterrorism and the Director of the Office of Management and Budget (OMB), shall coordinate the development and implementation of Federal Government activities to prepare the Nation for space weather events, including the activities established in section 5 of this order and the recommendations of the National Science and Technology Council (NSTC), established by Executive Order 12881 of November 23, 1993 (Establishment of the National Science and Technology Council).

(b) To ensure accountability for and coordination of research, development, and implementation of activities identified in this order and in the Action Plan, the NSTC shall establish a Space Weather Operations, Research, and Mitigation Subcommittee (Subcommittee). The Subcommittee member agencies shall conduct activities to advance the implementation of this order, to achieve the goals identified in the 2015 National Space Weather Strategy and any subsequent updates, and to coordinate and monitor the implementation of the activities specified in the Action Plan and provide subsequent updates.

SEC. 4. *Roles and Responsibilities*. To the extent permitted by law, the agencies below shall adopt the following roles and responsibilities, which are key to ensuring enhanced space weather forecasting, situational awareness, space weather preparedness, and continuous Federal Government operations during and after space weather events.

(a) The Secretary of Defense shall ensure the timely provision of operational space weather observations, analyses, forecasts, and other products to support the mission of the Department of Defense and coalition partners, including the provision of alerts and warnings for space weather phenomena that may affect weapons systems, military operations, or the defense of the United States.

(b) The Secretary of the Interior shall support the research, development, deployment, and operation of capabilities that enhance the understanding of variations of the Earth's magnetic field associated with solar-terrestrial interactions.

(d) The Secretary of Energy shall facilitate the protection and restoration of the reliability of the electrical power grid during a presidentially declared grid security emergency associated with a geomagnetic disturbance pursuant to 16 U.S.C. 824o–1.

(e) The Secretary of Homeland Security shall:

(i) ensure the timely redistribution of space weather alerts and warnings that support national preparedness, continuity of government, and continuity of operations; and

(ii) coordinate response and recovery from the effects of space weather events on critical infrastructure and the broader community.

(f) The Administrator of the National Aeronautics and Space Administration (NASA) shall:

(i) implement and support a national research program to understand the Sun and its interactions with Earth and the solar system to advance space weather modeling and prediction capabilities applicable to space weather forecasting;

(ii) develop and operate space-weather-related research missions, instrument capabilities, and models; and

(iii) support the transition of space weather models and technology from research to operations and from operations to research.

(g) The Director of the National Science Foundation (NSF) shall support fundamental research linked to societal needs for space weather information through investments and partnerships, as appropriate.

(h) The Secretary of State, in consultation with the heads of relevant agencies, shall carry out diplomatic and public diplomacy efforts to strengthen global capacity to respond to space weather events.

(i) The Secretaries of Defense, the Interior, Commerce, Transportation, Energy, and Homeland Security, along with the Administrator of NASA and the Director of NSF, shall work together, consistent with their ongoing activities, to develop models, observation systems, technologies, and approaches that inform and enhance national preparedness for the effects of space weather events, including how space weather events may affect critical infrastructure and change the threat landscape with respect to other hazards.

(j) The heads of all agencies that support National Essential Functions, defined by Presidential Policy Directive 40 (PPD–40) of July 15, 2016 (National Continuity Policy), shall ensure that space weather events are adequately addressed in their all-hazards preparedness planning, including mitigation, response, and recovery, as directed by PPD–8 of March 30, 2011 (National Preparedness).

(k) NSTC member agencies shall coordinate through the NSTC to establish roles and responsibilities beyond those identified in section 4 of this order to enhance space weather preparedness, consistent with each agency's legal authority.

SEC. 5. *Implementation*. (a) Within 120 days of the date of this order, the Secretary of Energy, in consultation with the Secretary of Homeland Security, shall develop a plan to test and evaluate available devices that mitigate the effects of geomagnetic disturbances on the electrical power grid through the development of a pilot program that deploys such devices, *in situ*, in the electrical power grid. After the development of the plan, the Secretary shall implement the plan in collaboration with industry. In taking action pursuant to this subsection, the Secretaries of Energy and Homeland Security shall consult with the Chairman of the Federal Energy Regulatory Commission.

(b) Within 120 days of the date of this order, the heads of the sector-specific agencies that oversee the lifeline critical infrastructure functions as defined by the National Infrastructure Protection Plan of 2013—including communications, energy, transportation, and water and wastewater systems—as well as the Nuclear Reactors, Materials, and Waste Sector, shall assess their executive and statutory authority, and limits of that authority, to direct, suspend, or control critical infrastructure operations, functions, and services before, during, and after a space weather event. The heads of each sector-specific agency shall provide a summary of these assessments to the Subcommittee.

(c) Within 90 days of receipt of the assessments ordered in section 5(b) of this order, the Subcommittee shall provide a report on the findings of these assessments with recommendations to the Director of OSTP, the Assistant to the President for Homeland Security and Counterterrorism, and the Director of OMB. The assessments may be used to inform the development and implementation of policy establishing authorities and responsibilities for agencies in response to a space weather event.

(d) Within 60 days of the date of this order, the Secretaries of Defense and Commerce, the Administrator of NASA, and the Director of NSF, in collaboration with other agencies as appropriate, shall identify mechanisms for advancing space weather observations, models, and predictions, and for sustaining and transitioning appropriate capabilities from research to operations and operations to research, collaborating with industry and academia to the extent possible.

(e) Within 120 days of the date of this order, the Secretaries of Defense and Commerce shall make historical data from the GPS constellation and other U.S. Government satellites publicly available, in accordance with Executive Order 13642 of May 9, 2013 (Making Open and Machine Readable the New Default for Government Information), to enhance model validation and improvements in space weather forecasting and situational awareness.

(f) Within 120 days of the date of this order, the Secretary of Homeland Security, through the Administrator of the Federal Emergency Management Agency and in coordination with relevant agencies, shall lead the development of a coordinated Federal operating concept and associated checklist to coordinate Federal assets and activities to respond to notification of, and protect against, impending space weather events. Within 180 days of the publication of the operating concept and checklist, agencies shall develop operational plans

documenting their procedures and responsibilities to prepare for, protect against, and mitigate the effects of impending space weather events, in support of the Federal operating concept and compatible with the National Preparedness System described in PPD–8.

SEC. 6. *Stakeholder Engagement*. The agencies identified in this order shall seek public-private and international collaborations to enhance observation networks, conduct research, develop prediction models and mitigation approaches, enhance community resilience and preparedness, and supply the services necessary to protect life and property and promote economic prosperity, as consistent with law.

SEC. 7. *Definitions*. As used in this order:

(a) "Prepare" and "preparedness" have the same meaning they have in PPD–8. They refer to the actions taken to plan, organize, equip, train, and exercise to build and sustain the capabilities necessary to prevent, protect against, mitigate the effects of, respond to, and recover from those threats that pose the greatest risk to the security of the Nation. This includes the prediction and notification of space weather events.

(b) "Space weather" means variations in the space environment between the Sun and Earth (and throughout the solar system) that can affect technologies in space and on Earth. The primary types of space weather events are solar flares, solar energetic particles, and geomagnetic disturbances.

(c) "Solar flare" means a brief eruption of intense energy on or near the Sun's surface that is typically associated with sunspots.

(d) "Solar energetic particles" means ions and electrons ejected from the Sun that are typically associated with solar eruptions.

(e) "Geomagnetic disturbance" means a temporary disturbance of Earth's magnetic field resulting from solar activity.

(f) "Critical infrastructure" has the meaning provided in section 1016(e) of the USA Patriot Act of 2001 (42 U.S.C. 5195c(e)), namely systems and assets, whether physical or virtual, so vital to the United States that the incapacity or destruction of such systems and assets would have a debilitating impact on security, national economic security, national public health or safety, or any combination of those matters.

(g) "Sector-Specific Agency" means the agencies designated under PPD–21 of February 12, 2013 (Critical Infrastructure Security and Resilience), or any successor directive, to be responsible for providing institutional knowledge and specialized expertise as well as leading, facilitating, or supporting the security and resilience programs and associated activities of its designated critical infrastructure sector in the all-hazards environment.

SEC. 8. *General Provisions*. (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an agency, or the head thereof; or

(ii) the functions of the Director of OMB relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

SUBCHAPTER XI—OTHER MATTERS

§18441. National and international orbital debris mitigation

(a) Findings

Congress makes the following findings:

(1) A national and international effort is needed to develop a coordinated approach towards the prevention, negation, and removal of orbital debris.

(2) The guidelines issued by the Inter-Agency Space Debris Coordination Committee provide a consensus understanding of 10 national space agencies (including NASA) plus the European Space Agency on the necessity of mitigating the creation of space debris and measures for doing so. NASA's participation on the Committee should be robust, and NASA should urge other space-relevant Federal agencies (including the Departments of State, Defense, and Commerce) to

work to ensure that their counterpart agencies in foreign governments are aware of these national commitments and the importance in which the United States holds them.

(3) Key components of such an approach should include—

(A) a process for debris prevention through agreements regarding spacecraft design, operations, and end-of-life disposition plans to minimize orbiting vehicles or elements which are nonfunctional;

(B) the development of a robust Space Situational Awareness network that can identify potential collisions and provide sufficient trajectory and orbital data to enable avoidance maneuvers;

(C) the interagency development of an overall strategy for review by the President, with recommendations for proposed international collaborative efforts to address this challenge.

(b) International discussion

(1) In general

The Administrator shall, in consultation with such other departments and agencies of the Federal Government as the Administrator considers appropriate, continue and strengthen discussions with the representatives of other space-faring countries, within the Inter-Agency Space Debris Coordination Committee and elsewhere, to deal with this orbital debris mitigation.

(2) Interagency effort

For purposes of carrying out this subsection, the Director of OSTP, in coordination with the Director of the National Security Council and using the President's Council of Advisors on Science and Technology coordinating mechanism, shall develop an overall strategy for review by the President, with recommendations for proposed international collaborative efforts to address this challenge.

(1) Reports required

Not later than 90 days after October 11, 2010, and not later than April 30 of each year thereafter, the Administrator shall submit to the appropriate committees of Congress a report on the implementation during the preceding year for the corrective action plan referred to in subsection (a)(4).

(2) Elements

Each report under this subsection shall set forth, for the year covered by such report, the following:

(A) A description of each NASA program that has exceeded its cost baseline by 15 percent or more or is more than 2 years behind its projected development schedule.

(B) For each program specified under subparagraph (A), a plan for such decrease in scope or requirements, or other measures, to be undertaken to control cost and schedule, including any cost monitoring or corrective actions undertaken pursuant to the National Aeronautics and

Space Administration Authorization Act of 2005 (Public Law 109–155),[1] and the amendments made by that Act.
